INTRODUCTORY SECTION

February 19, 2018

To the Board of Commissioners, County Manager, and Citizens of Duplin County:

State law requires that all general purpose local governments publish, within six months of the close of each fiscal year, a complete set of audited financial statements. This report is published to fulfill that requirement for the fiscal year ended June 30, 2017.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Carr, Riggs and Ingram, LLC, a firm of Certified Public Accountants, have issued an unmodified ("clean") opinion on Duplin County's financial statements for the year ended June 30, 2017. The independent auditor's report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

Profile of the Government

Duplin County, founded in 1750, is located in the southeastern part of North Carolina, amid the extensive Coastal Plain region, which covers nearly half the state. The County, which encompasses approximately 819 square miles, has approximately five square miles of water. It is bounded on the north by Wayne County, on the northeast by Lenoir County, on the east by Jones County, on the southeast by Onslow County, on the south by Pender County and on the west by Sampson County. The Town of Kenansville, which is the County Seat, is located geographically in the center of the County. Other municipalities located in the County include Beulaville, Calypso, Faison, Greenevers, Magnolia, Rose Hill, Teachey, Wallace and Warsaw. The County has a diversified economy based upon industry, agriculture, education, and governmental institutions supported by a mix of wholesale and retail businesses as well as numerous service providers.

The County has a land area of approximately 521,886 acres of which approximately 248,026 acres or 47.5% are classified as farm land. With elevations about 137 feet above mean sea level, the land surface is smooth with slight steeps along the flood plain of permanent streams. The largest waterway, the Northeast Cape Fear River, runs north to south in the eastern portion of the County as it flows in an eastward direction to the Atlantic Ocean.

Duplin County experiences a mild climate with an average temperature of 63 degrees and an average annual rainfall of approximately 53 inches, with most precipitation occurring during the summer months. The average frost-free season is from mid-April to mid-November, slightly more than 200 days. The County has a wide range of soil types that contribute to a highly productive agricultural industry. According to the 2012 Census of Agriculture, Duplin County was ranked 17th in the state and 26th in the nation for tobacco production and ranked 4th in the state for corn for grain production. The County also is a huge producer of livestock, poultry and their by-products – ranking 1st in the state and 11th in the nation for market value of livestock, poultry and by-products and also 1st in the state and nation for hogs and pigs sold according to the same 2012 Census of Agriculture. Duplin County is home to the world's largest turkey processing plant at 675,000 square feet owned by Butterball LLC. Because agriculture is such an integral part of Duplin County's economy, an Agriculture Protection Plan was developed in 2010 to help improve and protect current and future agriculture owners' land and enhance programs.

The County is governed by a five-member Board of Commissioners, referred to as the "Board". One member is elected from each of five different voting districts in the County. All five members serve four-year terms. The partisan elections for three of the Board members are held in November of Presidential election years and two of the Board members are held two years into the Presidential term. The Board elects a Chairman and Vice-Chairman from among its members every first Monday in December.

The County provides its citizens a wide range of services that include education, human services including health and social services, public safety such as Paramedic level Emergency Medical Services, cultural and recreational activities, environmental protection, general administration services, general transportation services, county-wide water services, and solid waste collection, disposal and recycling. The County also offers an airport providing general aviation services such as fueling and hangar rental. This report includes all the County's activities in maintaining these services, except schools, which are administered by the Duplin County Board of Education. The County also offers financial support to certain boards, agencies and commissions to assist their efforts in serving citizens. Among these are James Sprunt Community College and Duplin County Tourism Development Authority. The County has evaluated its relationship with each of these entities according to criteria established by GASB. Because County allocations do not constitute a major portion of its revenues and because the County has no authority to designate their management, James Sprunt Community College is not included in this report as a component unit. However, because the County does control the Duplin County Tourism Development Authority's budget and revenue authority, it is included in this report as a discretely presented component unit.

The proposed County budget is required to be presented for the upcoming fiscal year no later than June 1 and must be adopted by July 1, the beginning of the fiscal year. This annual budget serves as the foundation for Duplin County's financial planning and control. The budget is prepared by fund (e.g. General, Special Revenue, Enterprise), department (e.g. Finance, Sheriff, Transportation) and line types within the department (e.g. salaries, supplies, telephone, utilities). Department heads may transfer resources within a department with approval by the County Manager up to \$10,000. Transfers over \$10,000 and/or budget amendments involving revenue need special approval from the Board of Commissioners.

Local Economy

Duplin County is a rural county situated in the eastern coastal plain region of North Carolina and is located on the northeastern border of North Carolina's Southeast Regional Economic Development Partnership that includes 13 counties and many corporate partners in Eastern North Carolina. Kenansville, the county seat, is intersected by three highways: NC 24, NC 11 and NC 50. The County includes major highways such as Interstate 40, US 117 and NC 24. The County also offers a rail system that runs along US 117 which offers businesses both rail and major interstate access. Interstate 40 continues to have a positive economic impact on the County as

can be seen directly by the business activity along the exits and indirectly by the business the interstate brings into the County.

Duplin County has an estimated population of 60,084 and labor force of almost 25,000 per the North Carolina Employment Security Commission. The unadjusted unemployment rate at June 2017 was 4.7%. The County's economy has historically been based on agriculture, agriculture related processing and manufacturing. In the past, tobacco and row crops were the staples of agricultural production. In more recent years, poultry and livestock production has displaced row crops as the primary source of production. The County has diversified its economic base by attracting a local technology company and a plastics molding company.

The primary agricultural products produced in the County are poultry, tobacco, grain, produce and livestock. The County is a national leader in poultry and swine production with one of the nation's largest hog producers and the world's largest turkey processing plant located in the County.

The County considers the production of alternative energy fuel crops as a future agribusiness growth opportunity, and research into such crops is being conducted in the County. Research is being conducted locally on alternative crops for the production of ethanol and biodiesel fuels that would not compete with Midwestern corn supplies which are critical for local livestock production. Other fuel crops, such as industrial sweet potatoes and canola are being evaluated at the North Carolina State University Williamsdale Research farm located in the County.

Due to the County's geographic proximity to the military installations of Marine Corps Base Camp Lejeune (45 miles), Marine Corps Air Station New River (40 miles), Fort Bragg U.S. Army Base (65 miles), Marine Corps Air Station Cherry Point (85 miles) and Seymour Johnson Air Force Base (40 miles), the County is strategically positioned to support projected military growth in the area. Initiatives of growth to attract military population or business include civic and community efforts to attract military families. The Town of Warsaw maintains a Veterans Museum and hosts the longest running Veteran's Day parade in the United States.

Duplin County is also home to a growing wine industry which contributes to the local economy through wine production and tourism. Duplin Winery, which is located in Rose Hill, is the County's largest tourist attraction. It has a tank capacity of over 1.4 million gallons, is the largest winery in the South and produces the best-selling wine in North Carolina. Over 100,000 visitors visit the winery and production facility each year. With the growth of the industry, many farmers have replaced tobacco with grapes as a cash crop. In addition to jobs in the vineyard, wineries are an increasing source of employment in the County.

Long-term financial planning and major initiatives

Duplin County has to be in a continued state of planning to keep up with the ever-changing environment of local government. This is an ongoing charge to the elected officials as well as County staff. The Board of Commissioners had a planning retreat in February 2017 to discuss and develop strategies to help plan current and future needs of the County.

The County continues to have low-cost access to the debt markets to finance the acquisition, renovation or construction of various long-term assets. With the most recent Limited Obligation Bonds' issuance in 2016, the County received a long-term bond rating of "A+" with Standard & Poor's and "A2"with Moody's. It is management's objective to adequately plan to meet the County's ongoing demands for essential capital improvement projects and equipment without overburdening taxpayers with bonds payable from ad valorem taxes.

Duplin County annually reviews and updates the County Capital Needs Assessment, for "pay as you go" capital as well as long term capital projects and needs for county government and the education system. The County has been successful in utilizing the North Carolina Lottery funds for renovations and improvements of several schools throughout the County which prevents impact to local budgets.

The County continues to add to and improve the water system to reach as many households as possible. A sewer system project located at Interstate 40, exit 373 was completed, which will allow potential business growth in this area of the County as well as serve residents in that area. In 2012, the County collaborated with five granting agencies and existing industry, Lear Corporation, formally known as Guilford Mills, to construct a ten mile gas pipeline to help retain 500 existing jobs, leverage new investment and create 88 new jobs.

The preparation of this report would not have been possible without the skill, effort, and dedication of the entire staff of the Finance Office. I would like to express my appreciation to all government departments for their assistance in providing the data necessary to prepare this report. Credit also must be given to the County Manager and Board of Commissioners for their support for maintaining the highest standards of professionalism in the management of Duplin County's finances.

Respectfully submitted,

Duesa Lanier

INDEPENDENT AUDITORS' REPORT

To the Board of County Commissioners Duplin County, North Carolina

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Duplin County, North Carolina (the "County") as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of Duplin County Tourism Development Authority were not audited in accordance with *Governmental Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Duplin County, North Carolina, as of June 30, 2017, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 27 to the financial statements, Duplin County, North Carolina adopted Governmental Accounting Standards Board Statement No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB 68, and Amendments to Certain Provisions of GASB Statements 67 and 68. Our opinions are not modified with respect to that matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion, Analysis and the Law Enforcement Officers' Special Separation Allowance, Other Post-employment Benefit Schedules of Funding Progress and Employer Contributions, the Local Government Employees' Retirement System Schedules of the County's Proportionate Share of Net Pension Asset and County Contributions, and the Register of Deeds' Supplemental Pension Fund Schedule of the County's Proportionate Share of the Net Pension Asset and Schedule of County Contributions on pages 80-83 respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements of Duplin County, North Carolina. The combining and individual fund statements, budgetary schedules, other schedules as well as the accompanying Schedule of Expenditures of Federal and State Awards, as required by *Title 2 U.S. Code of Federal Regulations (CFR) Part 200*, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements, budgetary schedules, other schedules, and the Schedule of Expenditures of Federal and State Awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, based on our audit, the procedures performed as described above, the combining and individual fund financial statements, budgetary schedules, other schedules, and the Schedule of Expenditures of Federal and State Awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 19, 2018, on our consideration of the Duplin County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of the report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Duplin County's internal control over financial reporting and compliance.

Goldsboro, North Carolina

Caux Rigge & Ingram, L.L.C.

February 19, 2018

Management's Discussion and Analysis

As management of Duplin County, we offer readers of Duplin County's financial statements this narrative overview and analysis of the financial activities of Duplin County for the year ended June 30, 2017. We encourage readers to read the information presented here in conjunction with additional information that we have furnished in the County's financial statements, which follow this narrative.

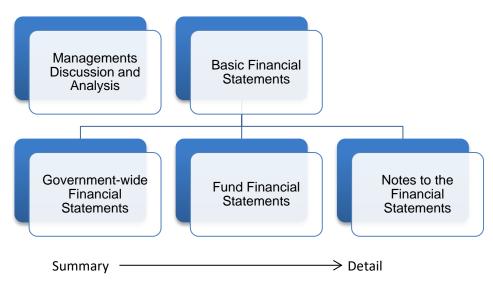

Financial Highlights

- The assets and deferred outflows of resources of Duplin County exceeded its liabilities and deferred inflows of resources at the close of the fiscal year by \$38,673,327 (net position).
- The government's total net position decreased by \$39,960,373, primarily due to capital expenditures for the local education agency.
- As of the close of the current fiscal year, Duplin County's governmental funds reported combined ending fund balances of \$40,056,838, after a net decrease in fund balance of \$43,233,602. Approximately 80.7 percent of this total amount, or \$32,308,493, is either nonspendable, restricted, committed, or assigned.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$7,754,090, or 14.2 percent of total general fund expenditures for the fiscal year.
- Total capital assets decreased by \$461,494 during the year ended June 30, 3017, primarily related to depreciation expense.
- Total long-term debt decreased by \$3,111,450 during the year ended June 30, 2017, primarily related to debt service payments.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to Duplin County's basic financial statements. The County's basic financial statements consist of three components; 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. The basic financial statements present two different views of the County through the use of government-wide statements and fund financial statements. In addition to the basic financial statements, this report contains other supplemental information that will enhance the reader's understanding of the financial condition of Duplin County.

Required Components of Annual Financial Report Figure 1

Basic Financial Statements

The first two statements (Exhibits 1 and 2) in the basic financial statements are the **Government-wide Financial Statements**. They provide both short and long-term information about the County's financial status.

The next statements (Exhibits 3 through 9) are **Fund Financial Statements**. These statements focus on the activities of the individual parts of the County's government. These statements provide more detail than the government-wide statements. There are four parts to the Fund Financial Statements: 1) the governmental funds statements; 2) the budgetary comparison statements; 3) the proprietary fund statements; and 4) the fiduciary fund statements.

The next section of the basic financial statements is the **notes**. The notes to the financial statements explain in detail some of the data contained in those statements. After the notes, **supplemental information** is provided to show details about the County's non-major governmental funds, all of which are added together in one column on the basic financial statements. Budgetary information required by North Carolina General Statutes also can be found in this part of the statements.

Government-wide Financial Statements

The government-wide financial statements are designed to provide the reader with a broad overview of the County's finances, similar in format to a financial statement of a private-sector business. The government-wide statements provide short and long-term information about the County's financial status as a whole.

The two government-wide statements report the County's net position and how they have changed. Net position is the difference between the County's total assets and deferred outflows of resources and the total liabilities and deferred inflows of resources. Measuring net position is one way to gauge the County's financial condition.

The government-wide statements are divided into two categories: governmental activities and business-type activities. The governmental activities include most of the County's basic services such as general government, public safety, human services, cultural and recreational, economic and physical development, environmental protection, and education. Property taxes, local option sales taxes and state grant funds finance most of these activities. The business-type activities are those that the County charges customers to provide. These include the water operations, solid waste operations, transportation services and airport operations. The final category is the component unit. Duplin County Tourism Development Authority is legally separate from the County however the County is financially accountable for the Authority by approving all new members that are elected by the Authority. The County finance officer is also the ex-officio finance officer of the Tourism Development Authority.

The government-wide financial statements are on Exhibits 1 and 2 of this report.

Fund Financial Statements

The fund financial statements provide a more detailed look at the County's most significant activities. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Duplin County, like all other governmental entities in North Carolina, uses fund accounting to ensure and reflect compliance (or non-compliance) with finance-related legal requirements, such as the General Statutes or the County's budget ordinance. All of the funds of Duplin County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds – Governmental funds are used to account for those functions reported as governmental activities in the government-wide financial statements. Most of the County's basic services are accounted for in governmental funds. These funds focus on how assets can readily be converted into cash flow in and out, and what monies are left at year-end that will be available for spending in the next year. Governmental funds are reported using an accounting method called *modified accrual accounting* which provides a current financial resources focus. As a result, the governmental fund financial statements give the reader a detailed short-term view that helps him or her determine if there are more or less financial resources available to finance the County's programs. The relationship between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is described in a reconciliation that is a part of the fund financial statements.

Duplin County adopts an annual budget for its General Fund, as required by the General Statutes. The budget is a legally adopted document that incorporates input from the citizens of the County, the management of the County, and the decisions of the Board about which services to provide and how to pay for them. It also authorizes the County to obtain funds from identified sources to finance these current period activities. The budgetary statement provided for in the General Fund demonstrates how well the County complied with the budget ordinance and whether or not the County succeeded in providing the services as planned when the budget was adopted. The budgetary comparison statement uses the budgetary basis of accounting and is presented using the same format, language, and classifications as the legal budget document. The statement shows four columns: 1) the original budget as adopted by the board; 2) the final budget as amended by the board; 3) the actual resources, charges to appropriations, and ending balances in the General Fund; and 4) the difference or variance between the final budget and the actual resources and charges. To account for the difference between the budgetary basis of accounting and the modified accrual basis, a reconciliation showing the differences in the reported activities is shown at the end of the budgetary statement.

Proprietary Funds – Duplin County has two different kinds of proprietary funds. *Enterprise Funds* are used to report the same functions presented as business-type activities in the government-wide financial statements. Duplin County uses enterprise funds to account for its water activities, solid waste operations, transportation services, and airport operations. These funds are the same as those functions shown in the business-type activities in the Statement of Net Position and the Statement of Activities. Internal Service Funds are an accounting device used to accountlate and allocate costs internally among functions of the County. The County uses an internal service fund to account for one activity – to administer its self-insured hospital insurance policy. Because this activity benefits predominantly governmental rather than business-type activities, the internal service fund has been included within the governmental activities in the government-wide financial statements.

Fiduciary Funds – Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Duplin County has five fiduciary funds – Ad Valorem and Motor Vehicle Tax Fund, County Agency Fund, the Social Services Fund, the Register of Deeds Fund and the Board of Education Fines and Forfeitures Fund.

Notes to the Financial Statements — The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements start on page 39 of this report.

Other Information – In addition to the basic financial statements and accompanying notes, this report includes certain required supplementary information concerning Duplin County's progress in funding its obligation to provide pension and other post-employment benefits to its employees. Required supplementary information can be found in Exhibit's A-1 through A-4 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as one useful indicator of a government's financial condition. The County's assets and deferred outflows of resources exceeded its liabilities and deferred inflows of resources by \$38,673,327 as of June 30, 2017. The County's net position decreased by \$39,960,373 for the fiscal year ended June 30, 2017. A significant portion \$48,555,448 (126%) reflects the County's net investment in capital assets (eg. land, buildings, equipment, vehicles, etc.). Duplin County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although Duplin County's investment in its capital assets is reported net of the outstanding related debt, the resources needed to repay that debt must be provided by other sources, since the capital assets cannot be used to liquidate these liabilities. An additional portion of Duplin County's net position \$28,435,284 represents resources that are subject to external restrictions on how they may be used. The remaining balance of \$(38,673,327) is unrestricted.

With the adoption of GASB Statement 73, beginning net position has been restated to conform to the new reporting standard.

Several aspects of the County's financial operations positively influenced the total unrestricted governmental net position:

- Continued diligence in the collection of property taxes by maintaining a collection percentage of 96.77.
- Continued low costs of debt due to the County's high bond rating.
- Management's proactive stance on monitoring spending across County departments to ensure compliance with the budget.

With the adoption of GASB Statement 73, beginning net position has been restated to conform to the new reporting standard.

The County's net position decreased by \$39,960,373, before restatement associated with the implementation of GASB 73 during the fiscal year ended June 30, 2017, primarily relating to school capital expenditures, where the County issued debt for the construction. The governmental activities net position decreased by \$40,833,301 whereas business-type activities experienced an increase of \$872,928.

Governmental Activities: Key elements of this decrease are as follows:

• Increase in spending for school capital projects.

Business-type activities: Key elements of this increase are as follows:

Overall increase in fund revenues.

Financial Analysis of the County's Funds

As noted earlier, Duplin County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of Duplin County's governmental funds is to provide information on near-term inflows, outflows, and balances of usable resources. Such information is useful in assessing Duplin County's ability to finance current activities or future projects. Specifically, unassigned fund balance can be a useful measure of a government's net resources available for spending at the end of the fiscal year.

The General Fund is the chief operating fund of Duplin County. At the end of the current year, unassigned fund balance of the General Fund was \$7,754,090, while total fund balance was \$18,170,293 (Exhibit 3). As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 19.4 percent of total General Fund expenditures, while total fund balance represents 33% percent of that same amount.

At June 30, 2017, the governmental funds of Duplin County reported a combined fund balance of \$40,056,838.

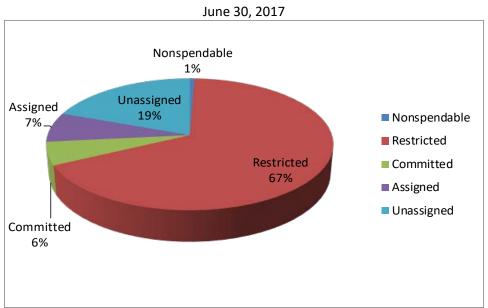

Figure 4
Governmental Funds – Total Fund Balance
June 30, 2017

Figure 5
Governmental Funds Revenue
For the Years Ended June 30, 2017 and 2016

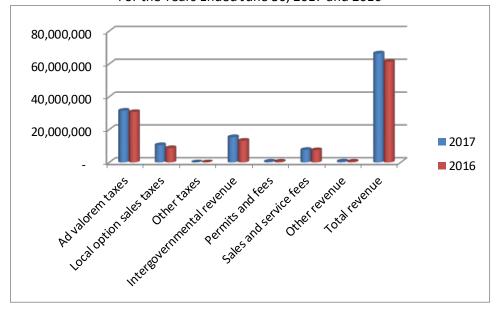

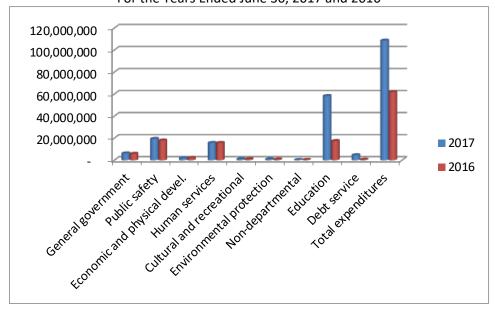

Figure 6
Governmental Funds Expenditures
For the Years Ended June 30, 2017 and 2016

General Fund Budgetary Highlights: During the fiscal year, the County revised the budget on several occasions. Generally, budget amendments fall into one of three categories: 1) amendments made to adjust the estimates that are used to prepare the original budget ordinance once exact information is available; 2) amendments made to recognize new funding amounts from external sources, such as Federal and State grants; and 3) increases in appropriations that become necessary to maintain services. Total amendments to the General Fund increased budgeted revenues by \$5.7 million. The largest increases were to intergovernmental revenues and sales and service revenues.

The actual operating revenues for the General Fund were more than the revised budgeted amounts by \$102,769, most of which is attributed to intergovernmental revenues. (Exhibit 5)

The actual operating expenditures for the General Fund were less than the revised budgeted amounts by \$5,515,932, most of which is attributed to controlled expenditures. (Exhibit 5)

Proprietary Funds. Duplin County's proprietary funds provide the same type of information found in the government-wide statements but in more detail. At the end of the fiscal year, several funds had positive unrestricted net position. The Airport Commission Fund amounted to \$221,869, and the Water Fund equaled \$6,660,327. The non-major funds of the Solid Waste Fund and the Transportation Development Fund had a combined total of unrestricted net position of \$2,504,722. (Exhibit 6)

A total decrease in net position for the enterprise funds was reported by the Airport Commission Fund - \$(457,058) (Exhibit 7). The Water Fund had an increase in net position of \$907,980 and the non-major funds had a combined increase in net position totaling \$422,006. Other factors concerning the finances of these funds have already been addressed in the discussion of Duplin County's business-type activities.

Capital Asset and Debt Administration

Capital assets

Duplin County's investment in capital assets for its governmental and business—type activities as of June 30, 2017, totals \$75,862,518 (net of accumulated depreciation) (Exhibit 1). Some of these assets include buildings, land, land improvements, machinery and equipment, park facilities, water systems, and vehicles.

Major capital asset transactions during the year include:

- Purchase of vehicles and equipment for various departments.
- Building renovations and construction for various departments.

Additional information on the County's capital assets can be found in Note 8 of the Notes to the Financial Statements.

Long-term Debt.

As of June 30, 2017, Duplin County had total long-term debt outstanding of \$85,652,608.

| | Governmental Activities | | Business-type Activities | | | | Total | | | | |
|--------------------------|-------------------------|----|--------------------------|----|------------|----|------------|----|------------|----|------------|
| | 2017 | | 2016 | | 2017 | | 2016 | | 2017 | | 2016 |
| Limited obligation bonds | \$ 58,345,538 | \$ | 60,514,251 | \$ | 14,221,311 | \$ | 14,775,403 | \$ | 72,566,849 | \$ | 75,289,654 |
| Notes payable | 9,675,462 | | 9,847,522 | | 3,410,297 | | 3,626,882 | | 13,085,759 | | 13,474,404 |
| Total long-term debt | \$ 68,021,000 | \$ | 70,361,773 | \$ | 17,631,608 | \$ | 18,402,285 | \$ | 85,652,608 | \$ | 88,764,058 |

Duplin County's total debt has decreased by \$3,111,450 during the past fiscal year. This decrease is primarily due to current debt service payments.

Duplin County maintains an AA- bond rating from Standard and Poor's Corporation and was assigned an A+ long-term rating on the 2016 Series Limited-Obligation Bonds that were issued for County school facility enhancements. This bond rating is a clear indication of the sound financial condition of Duplin County.

The State of North Carolina limits the amount of general obligation debt that a unit of government can issue to 8 percent of the total assessed value of taxable property located within that government's boundaries. The legal debt margin for Duplin County is \$268,134,562.

Additional information regarding Duplin County's long-term debt can be found in Note 17 of the Notes to the Financial Statements.

Economic Factors and Next Year's Budgets and Rates

The following key economic indicators reflect the growth and prosperity of the County.

- The unemployment rate for the county is 4.7% which is above the state average of 4.5%.
- The assessed value of real and personal property increased by \$79,345,851 or 2.1%.
- Our population of 60,130 has grown over the past few years mainly due to the growth of the Hispanic population being permanently located in Duplin as compared to being a seasonal workforce.

Budget Highlights for the Fiscal Year Ending June 30, 2018

Governmental Activities: The County approved an original \$55.8 million general fund budget. This represents an increase over the original budget adopted for FY 2017 but a slight decrease over the final budget for FY 2017. The property rate for tax year FY 2018 decreased to \$0.6950 per hundred dollar valuation.

Business – type Activities: The County has not increased its tipping fees in the solid waste fund. The water funds' rates remained at prior year amounts. The Transportation fund rate schedule for FY 2017-2018 remained at a flat rate fee per trip of \$8.00.

Economic Forecast

Duplin County's economy has historically been based on agriculture. According to the North Carolina Department of Agriculture's 2016 statistics, Duplin County ranks number 1 in the state in cash receipts from the sale of crops and livestock with total sales of \$1.1 billion. Duplin County is also recognized as an important agricultural producer nationally. The 2012 U.S. Census of Agriculture ranks Duplin County 20th of 3,079 U.S. counties in market value of agricultural products sold; with 90% of the value generated by livestock sales.

Poultry production continues to expand in Duplin County. Following a 2017 fire that destroyed the House of Raeford's Wallace plant, the company announced plans to partner with the county and the state to invest \$30

million in a new processing plant thereby retaining 600 existing jobs and creating 600 new jobs over the next two years.

The Duplin County Economic Development Commission has identified 4 strategic markets as potential growth segments: Logistics and distribution, Alternative Energy Production, Food Processing and Defense.

A network of 6 primary highways intersects with I-40, the state's major east-west artery. The county has four-lane access to the region's population centers; deep water ports at Wilmington and Morehead City; and the military installations of Marine Corps Base Camp Lejeune, Fort Bragg, and Seymour Johnson Air Force Base.

The production of alternative clean energy is an emerging agribusiness growth opportunity for the county. Important research is being conducted locally on alternative crops for the production of ethanol and biodiesel fuels that would not compete with Midwestern corn supplies which are critical for local livestock production. Fuel crops such as Giant Miscanthus and Switch grass are being evaluated at North Carolina State University's Williamsdale Biofuels Field Laboratory located in Duplin County.

In 2016, Carbon Cycle Energy broke ground on a \$100 million plant that will produce biogas from agricultural and food waste. The company has contracts with Piedmont Natural Gas to deliver biogas directly into the natural gas pipeline that traverses the county.

Manufacturing, including agricultural related food processing, is an important segment of the County's employment. Approximately 30% of the county's workforce is employed in agricultural related processing and manufacturing. Of the ten largest employers in the county, six are engaged in agricultural production, manufacturing or food processing.

Requests for Information

This report is designed to provide an overview of the County's finances for those with an interest in this area. Questions concerning any of the information found in this report or requests for additional information should be directed to the Duplin County Finance Office, PO Box 950, Kenansville, N.C. 28349.

Duplin County, North Carolina
Reconciliation of the Statement of Revenues, Expenditures and
Changes in Fund Balances of Governmental Funds to the Statement of Activities
For the Year Ended June 30, 2017
Exhibit 4

\$ (40,833,301)

| Amounts reported for governmental activities in the statement of activities are different because: | |
|--|-----------------|
| Net changes in fund balances - governmental funds | \$ (43,233,602) |
| Change in fund balance due to change in reserve for inventory | 26,796 |
| Internal service fund activities to benefit governmental activities | (120,147) |
| Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period. | (87,730) |
| Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds. | 1,877,782 |
| Contributions to the pension plan in the current fiscal year are not included in the Statement of Activities | 4,702,078 |
| The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction has any effect on net position. This amount is the net effect of these differences in the treatment of long-term debt and related items. | 332,391 |
| Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. | (4,330,869) |

| Due to other governments | 94,176 |
| Due to other governmental funds | 3,011 |
| Total liabilities | \$ 323,222 |

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Duplin County, North Carolina and its component units conform to generally accepted accounting principles as applicable to governments. The following is a summary of the more significant accounting policies.

Reporting Entity

The County, which is governed by a five-member board of commissioners, is one of the 100 counties established in North Carolina under North Carolina General Statute 153A-10. As required by generally accepted accounting principles, these financial statements present the County and its component units, legally-separate entities for which the County is financially accountable. The Duplin County Water Districts (the "Districts"), which have a June 30^{th} year-end, are presented as if they were a separate proprietary fund of the County (blended presentation). The Districts do not issue separate financial statements. Duplin County Industrial Facility and Pollution Control Financing Authority (the Authority) exists to issue and service revenue bond debt of private businesses for economic development purposes. The Authority has no financial transactions or account balances; therefore, it is not presented in the basic financial statements. The Duplin County Tourism Development Authority has elected not to issue separate financial statements, but to include all relevant information required by generally accepted accounting principles as supplementary information in the County's Comprehensive Annual Financial Report.

| | Reporting | | Separate |
|--|-----------|---|----------------------|
| Component Unit | Method | Criteria for Inclusion | Financial Statements |
| Duplin County Water District | Blended | Under State law [NCGS 162A-89], the County's board of commissioners also serve as the governing board for the District. | None issued |
| Duplin County Industrial Facility and Pollution Control Financing Authority | Discrete | The Authority is governed by a six- member board of commissioners that is appointed by the County commissioners. The County can remove any commissioner of the Authority with or without cause. | None issued |
| Duplin County Tourism Development Authority | Discrete | The Authority exists to promote tourism within the county. The County commissioners appointed the original governing board of the Authority. All new members to the board are now nominated and selected by the Authority board, but subject to the approval of the County commissioners. | None issued |

Basis of Presentation

Government-wide Statements: The statement of net position and the statement of activities display information about the primary government (the County) and its component units. These statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the *governmental* and *business-type activities* of the County. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties. The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activities of the County and for each function of the County's governmental activities.

Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expense allocations that have been made in the funds have been reversed for the statement of activities. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the County's funds, including its fiduciary funds and blended component units. Separate statements for each fund category – governmental, proprietary, and fiduciary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as non-major funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as subsidies and investment earnings, result from non-exchange transactions or ancillary activities.

The County reports the following major governmental funds:

General Fund: This is the County's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. The Capital Reserve Fund is a legally budgeted fund under North Carolina General Statutes; however, for statement presentation in accordance with GASB Statement No. 54 it is consolidated in the General Fund.

Capital Projects Fund - This fund accounts for various capital projects undertaken by the County, including the capital improvement projects for the County school system.

Debt Service Fund - This fund accounts for cash reserves that are used to pay principal and interest for governmental activity type debt.

The County reports the following major enterprise funds:

Airport Commission Fund: This fund is used to account for the operations of the County airport.

Water Fund: This fund is used to account for the operations of the County water districts.

The County reports the following fund types:

Agency Funds: Agency funds are custodial in nature and do not involve the measurement of operating results. Agency funds are used to account for assets the County holds on behalf of others. The County maintains the following agency funds: the Social Services Fund, which accounts for moneys deposited with the Department of Social Services for the benefit of certain individuals; the County Agency Fund which accounts for monies deposited for various cooperative extension programs, sheriff execution monies collected from individuals and businesses, the jail inmate trust funds, and the County attorney's trust fund; the Motor Vehicle 3% Interest Fund, which accounts for the three percent interest on the first month of delinquent motor vehicle taxes that the County is required to remit to the North Carolina Department of Motor Vehicles; the Motor Vehicle Tax Fund, which accounts for registered motor vehicle property taxes that are billed by the State and collected by the State and the County for various municipalities within the County but that are not revenues to the County; the Register of Deeds Fund which accounts for the \$5 of each fee collected by the register of deeds for registering a deed of trust or mortgage; and the Board of Education Fines and Forfeitures Fund which accounts for various legal fines and forfeitures required to be remitted to the Board of Education.

Internal Service Fund: This fund is used to account for the County's participation in the self-insured hospital insurance plan.

Non-major Funds: The Emergency Telephone System Fund, Automation Enhancement and Preservation Fund, Revaluation Fund, Community Development Revolving Loan Fund, School Planning Allocation Fund, Fire District Fund, CDBG 12-C-2494 Fund, CDBG 12-C-2414 Fund, CDBG 2015-I-Project Fund, and County Trust Fund, are reported as non-major special revenue funds. The Industrial Expansion Capital Project Fund, Capital Project School Fund, and Capital Project JSCC Fund are reported as a non-major capital project funds. The Transportation Development Plan Fund, and Solid Waste Fund are reported as non-major enterprise funds.

Measurement Focus, Basis of Accounting

In accordance with North Carolina General Statutes, all funds of the County are maintained during the year using the modified accrual basis of accounting.

Government-wide, Proprietary, and Fiduciary Fund Financial Statements: The government-wide, proprietary, and fiduciary fund financial statements are reported using the economic resources measurement focus. The government-wide and proprietary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the County gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the County enterprise funds are charges to customers for sales and services. The County also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the water and sewer system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Governmental Fund Financial Statements: Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

The County considers all revenues available if they are collected within 90 days after year-end, except for property taxes. Ad valorem property taxes are not accrued as revenue because the amount is not susceptible to accrual. At June 30th, taxes receivable for property other than motor vehicles are materially past due and are not considered to be an available resource to finance the operations of the current year.

As of September 1, 2013, State law altered the procedures for the assessment and collection of property taxes on registered motor vehicles in North Carolina. Effective with this change in the law, the State of North Carolina is responsible for billing and collecting the property taxes on registered motor vehicles on behalf of all municipalities and special tax districts. Property taxes are due when vehicles are registered. The billed taxes are applicable to the fiscal year in which they are received. Uncollected taxes that were billed in periods prior to September 1, 2014 and for limited registration plates are shown as a receivable in these financial statements and are offset by deferred inflows of resources.

Sales taxes and certain intergovernmental revenues, such as utilities franchise tax, collected and held by the State at year-end on behalf of the County are recognized as revenue. Intergovernmental revenues and sales and services are not susceptible to accrual because generally they are not measurable until received in cash. Expenditure driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been satisfied.

Under the terms of grant agreements, the County funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Thus when program expenses are incurred, there are both restricted and unrestricted net position available to finance the program. It is the County's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants, and then by general revenues.

Budgetary Data

The County's budgets are adopted as required by the North Carolina General Statutes. An annual budget is adopted for the general, special revenue (excluding the Capital Reserve and Grant projects), and the enterprise funds. All annual appropriations lapse at the fiscal year end. Project ordinances are adopted for the Capital Projects, Capital Reserve, Grant projects, and Enterprise Capital Project funds. The Enterprise Capital Project funds are consolidated with the enterprise operating funds for reporting purposes.

All budgets are prepared using the modified accrual basis of accounting, which is consistent with the accounting system used to record transactions. Expenditures may not legally exceed appropriations at the functional level for all annually budgeted funds and at the object level for the multi-year funds. Amendments by the board are required for any revisions that alter total expenditures of any fund or that change functional appropriations by more than \$10,000. The County manager may move up to \$10,000 between line items appropriations and must provide a list of such changes to the Board at the next meeting. The governing board must approve all amendments. During the year, several amendments to the original budget were necessary. The budget ordinance must be adopted by July 1 of the fiscal year or the governing board must adopt an interim budget to cover that time until the annual ordinance can be adopted.

A budget calendar is included in the North Carolina General Statutes, which prescribes the last day on which certain steps of the budget procedure are to be performed. The following schedule lists the tasks to be performed and the date by which each is required to be completed.

- April 30 Each department head will transmit to the budget officer the departmental budget requests and revenue estimates for the budget year.
- June 1 The budget and the budget message shall be submitted to the governing board. The public hearing on the budget should be scheduled at this time.
- July 1 The budget ordinance shall be adopted by the governing board.

As required by State law [G.S. 159-26(d)], the County maintains encumbrance accounts, which are considered to be "budgetary accounts". Encumbrances outstanding at year-end represent the estimated amounts of the expenditures ultimately to result if unperformed contracts in progress at year-end are completed. Encumbrances outstanding at year-end do not constitute expenditures or liabilities.

Deposits and Investments

All deposits of the County and the Duplin County Tourism Development Authority are made in board-designated official depositories and are secured as required by G.S. 159-31. The County may designate as an official depository any bank or savings association whose principal office is located in North Carolina. Also, the County and Tourism Development Authority may establish time deposit accounts such as NOW and SuperNOW accounts, money market accounts, and certificates of deposit.

State law [G.S. 159-30(c)] authorizes the County and the Tourism Development Authority to invest in obligations of the United States or obligations fully guaranteed both as to principal and interest by the United States; obligations of the State of North Carolina; bonds and notes of any North Carolina local government or public authority; obligations of certain non-guaranteed federal agencies; certain high quality issues of commercial paper and bankers' acceptances and the North Carolina Capital Management Trust (NCCMT).

The County's investments are carried at fair value. The securities of the NCCMT Government Portfolio, a SEC-registered (2a-7) external investment pool, is measured at amortized cost, which is the NCCMT's share price. The NCCMT Term Portfolio's securities are valued at fair value. The County's investment in the NCCMT is presented as cash on the statement of net position and as it represents cash, the value is its carrying-value.

Cash and Cash Equivalents

The County pools monies from several funds to facilitate disbursement and investment and maximize investment income. Therefore, all cash and investments are essentially demand deposits and are considered cash and cash equivalents. Duplin County Tourism Development Authority considers demand deposits and investments purchased with an original maturity of three months or less and which are not limited as to use to be cash and cash equivalents.

Restricted Assets

Customer deposits held by the County before any services are supplied are restricted to the service for which the deposit was collected. In the Solid Waste Fund, funds have been restricted to provide for future environmental contingencies. Money in the Tax Revaluation Fund is also classified as restricted assets because its use is restricted per North Carolina General Statute 153A-150. Money in the School Planning Allocation Fund is classified as restricted assets because its use is restricted to education by the North Carolina Public School Building Capital Fund. Restricted cash and cash equivalents consists of the following at June 30, 2017:

| Governmental Activities: Revaluation Fund - G.S. 153A-150 Capital Project Fund Debt Service Fund School Planning Allocation Fund - Public School Building | \$ 765,264 12,968,939 30,050 |
|---|---------------------------------------|
| Capital Fund | 1,567,961 |
| Total governmental activities | \$ 15,332,214 |
| Business-type Activities: | |
| Water Fund | |
| Customer Deposits | \$ 439,435 |
| Airport Commission Fund | 28,071 |
| Water Fund | 7,578 |
| Solid Waste Fund - environmental contingencies | 1,076,971 |
| Total business-type activities | \$ 1,552,055 |

Ad Valorem Taxes Receivable

In accordance with State law [G.S. 105-347 and G.S. 159-13(a)], the County levies ad valorem taxes on property other than motor vehicles on July 1st, the beginning of the fiscal year. The taxes are due on September 1st (lien date); however, penalties and interest do not accrue until the following January 6th. These taxes are based on the assessed values as of January 1, 2016.

Allowance for Doubtful Accounts

All receivables that historically experience uncollectible accounts are shown net of an allowance for doubtful accounts. The amount is estimated by analyzing the percentage of receivables that were written off in prior years.

Inventory and Prepaid Items

The inventories of the County are valued at average cost, which approximates market. The County's General Fund inventory consists of expendable supplies that are recorded as expenditures when purchased. The inventory of the County's enterprise funds consists of materials and supplies held for consumption or resale. The cost of the inventory carried in the County's enterprise funds is recorded as an expense as it is consumed or sold. Occasionally, certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

Capital Assets

Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at their estimated fair value at the date of donation. The County's minimum capitalization amount for capital assets is \$5,000. Certain items acquired before July 1, 1970, are recorded at an estimated historical cost. The total of such estimates is not considered large enough that errors would be material when the capital assets are considered as a whole. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Capital assets of the County are depreciated on a straight-line basis over the following estimated useful lives:

Water plants and distribution systems

Airport terminals and runways

Building and improvements

Equipment

Vehicles

Useful Life

50 years

10 to 50 years

10 to 50 years

10 years

5 years

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *Deferred Outflows of Resources*, represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. The County has a several items that meet this criterion – a deferred loss on refunding of debt, pension related deferrals, and contributions made to the pension plan in the current fiscal year.

In addition to liabilities, the statement of financial position can also report a separate section for deferred inflows of resources. This separate financial statement element, *Deferred Inflows of Resources*, represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. The County has several items that meet the criterion for this category – taxes receivable, accounts receivable, and prepaid taxes, and other pension related deferrals.

Long-term Obligations

In the government-wide financial statements and in the proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position.

In the fund financial statements for governmental fund types, the face amount of debt issued is reported as other financing sources.

Compensated Absences

The vacation policy of the County and the Tourism Development Authority provides for the accumulation of up to thirty days earned vacation leave with such leave being fully vested when earned. For the County's government-wide and proprietary funds, an expense and a liability for compensated absences and the salary-related payments are recorded as the leave is earned.

The sick leave policies of the County and Tourism Development Authority provide for an unlimited accumulation of earned sick leave. Sick leave does not vest, but any unused sick leave accumulated at the time of retirement may be used in the determination of length of service for retirement benefit purposes. Since neither entity has any obligation for accumulated sick leave until it is actually taken, no accrual for sick leave has been made.

Net Position

Net position in government-wide and proprietary fund financial statements are classified as net investment in capital assets; restricted; and unrestricted. Restricted net position represents constraints on resources that are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or imposed by law through state statute.

Fund Balances

In the governmental fund financial statements, fund balance is composed of five classifications designed to disclose the hierarchy of constraints placed on how fund balance can be spent.

The governmental fund types classify fund balances as follows:

Nonspendable Fund Balance – This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Inventories - portion of fund balance is not an available resource because it represents the year-end balance of ending inventories, which are not spendable resources.

Restricted Fund Balance – This classification includes revenue sources that are restricted to specific purposes externally imposed by creditors or imposed by law.

Restricted for Stabilization of State Statute – portion of fund balance that is restricted by State Statute [GS 159-8(a)].

Restricted for Register of Deeds – portion of fund balance that is restricted by revenue source to pay for the computer equipment and imaging technology for the Register of Deeds office.

Restricted for Federally Seized Assets – portion of fund balance that is restricted by revenue source to pay for public safety expenditures.

Restricted for Grants/Projects – portion of fund balance that is restricted by revenue source to pay for grant related expenditures or remaining portion of projects in process.

Restricted for Health – portion of fund balance that is restricted by revenue source for health services to citizens.

Restricted for Economic Development – portion of fund balance that is restricted by revenue source for economic and physical development activities.

Restricted for Sheriff – portion of fund balance that is restricted by revenue source for sheriff expenditures.

Restricted for Inspections – portion of fund balance that is restricted by revenue source for inspection expenditures.

Restricted for Event Center – portion of fund balance that is restricted by revenue source for event center expenditures.

Restricted for Daycare – portion of fund balance that is restricted by revenue source for daycare services.

Restricted for Schools – portion of fund balance that can only be used for School Capital per G.S. 159-18-22.

Restricted for E-911 – portion of fund balance that is restricted by revenue source for emergency services.

Restricted for Tax Revaluation – portion of fund balance that can only be used for tax revaluation.

Committed Fund Balance – portion of fund balance that can only be used for specific purpose imposed by Duplin County's governing body.

Committed for Capital Improvements – portion of fund balance that can only be used for capital improvements.

Committed for Debt Service – portion of fund balance that can only be used for debt service.

Committed for Economic Development – portion of fund balance in the Community Development Revolving Loan Fund that can only be used for economic development activities.

Assigned Fund Balance – portion of fund balance that Duplin County's governing body has budgeted.

Subsequent year's expenditures - portion of fund balance that is appropriated in the next year's budget that is not already classified in restricted or committed.

Unassigned Fund Balance – Portion of fund balance that has not been restricted, committed, or assigned to specific purposes or other funds.

Duplin County has a revenue spending policy that provides guidance for programs with multiple revenue sources. The Finance Officer will use resources in the following hierarchy: bond proceeds, federal funds, State funds, local non-county funds, and county funds. For purposes of fund balance classification, expenditures are to be spent from restricted fund balance first, followed in order by committed fund balance, assigned fund balance, and lastly, unassigned fund balance. The Finance Officer has the authority to deviate from this policy if it is in the best interest of the County.

Defined Benefit Pension Plans

The County participates in three cost-sharing, multiple-employer, defined benefit pension plans that are administered by the State; the Local Governmental Employees' Retirement System (LGERS), the Registers of Deeds' Supplemental Pension Fund (RODSPF), and the Law Enforcement Officers' Special Separation Allowance (LEOSSA) (collectively, the "state-administered defined benefit pension plans"). For purposes of measuring the net pension asset or liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net positions of the state-administered defined benefit pension plans and additions to/deductions from the state-administered defined benefit pension plans' fiduciary net positions have been determined on the same basis as they are reported by the state-administered defined benefit pension plans. For this purpose, plan member contributions are recognized in the period in which the contributions are due. The County's employer contributions are recognized when due and the County has a legal requirement to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the state-administered defined benefit pension plans. Investments are reported at fair value.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Adoption of New Financial Accounting Standards

The following GASB Statements recently issued and adopted by the GASB impacted the Board's financial statements:

GASB Statement No. 77, Tax Abatement Disclosures ("GASB 77"), requires governments that enter into tax abatement agreements to disclose: (1) Brief descriptive information concerning the agreement; (2) The gross dollar amount of taxes abated during the period; and 3) Commitments made by government, other than to abate taxes, that are part of the tax abatement agreement. GASB 77 will be effective for fiscal years beginning after December 15, 2015. Currently, this new standard has minimal effect on the County's financial statements.

The County implemented GASB issued Statement No. 82 – Pension Issues-an amendment of GASB Statements No. 67, No. 68, and No. 73. This Statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. The County has implemented this provision for the year ended June 30, 2017. The implementation of this statement had no effect on net position of the County.

The County implemented GASB issued Statement No. 80 – Blending Requirements for Certain Component Units – An Amendment of GASB Statement No. 14. The objective of this Statement is to improve financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement. The additional criterion requires blending of a component unit incorporated as a not-for-profit corporation in which the primary government is the sole corporate member. The additional criterion does not apply to component units included in the financial reporting entity pursuant to the provisions of Statement No. 39, determining whether certain organizations are component units.

Future Accounting Pronouncements

In June 2015, the GASB issued Statement No. 75 – Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. This Statement replaces the requirements of Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, as amended, and No. 57, OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans, for OPEB. The County is currently assessing the impact of GASB 84 on the financial statements for the year ending June 30, 2018.

In November 2016, the GASB issued Statement No. 83 – Certain Asset Retirement Obligations. This Statement will enhance comparability of financial statements among governments by establishing uniform criteria for governments to recognize and measure certain AROs, including obligations that may not have been previously reported. This Statement also will enhance the decision-usefulness of the information provided to financial statement users by requiring disclosures related to those AROs. The County is currently assessing the impact of GASB 83 on the financial statements for the year ending June 30, 2019.

In January 2017, the GASB issued Statement No. 84 – Fiduciary Activities. The requirements of this Statement will enhance consistency and comparability by (1) establishing specific criteria for identifying activities that should be reported as fiduciary activities and (2) clarifying whether and how business-type activities should report their fiduciary activities. Greater consistency and comparability enhances the value provided by the information reported in financial statements for assessing government accountability and stewardship. The County is currently assessing the impact of GASB 84 on the financial statements for the year ending June 30, 2020.

In March 2017, the GASB issued Statement No. 85 – Omnibus 2017. The objective of this Statement is to address practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits [OPEB]). The County is currently assessing the impact of GASB 85 on the financial statements for the year ending June 30, 2018.

In June 2017, the GASB issued Statement No. 87 – Leases which seeks to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The County is currently assessing the impact of GASB 87 on the financial statements for the year ending June 30, 2021.

In March 2016, the GASB issued Statement No. 81 – Irrevocable Split-Interest Agreements. The objective of this Statement is to improve accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement. This Statement requires that a government that receives resources pursuant to an irrevocable split-interest agreement recognize assets, liabilities, and deferred inflows of resources at the inception of the agreement. Furthermore, this Statement requires that a government recognize assets representing its beneficial interests in irrevocable split-interest agreements that are administered by a third party, if the government controls the present service capacity of the beneficial interests. This Statement requires that a government recognize revenue when the resources become applicable to the reporting period. The County is currently assessing the impact of GASB 81 on the financial statements for the year ending June 30, 2018.

NOTE 2 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Deficit Fund Balance in an Individual Fund

As of June 30, 2017, the Fire District Fund had a deficit fund balance of \$623. This is a result of the County remitting all prepaid tax collections to the fire districts prior to the tax collections being recognized as revenue. This will be remedied during the year ending June 30, 2018.

NOTE 3 - RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position

The governmental fund balance sheet includes reconciliation between fund balance - total governmental funds and net position – governmental activities as reported in the government-wide statement of net position. The net adjustment of \$(49,157,311) consists of several elements as follows:

| Description | Amount |
|---|-----------------------------|
| Total fund balances - governmental funds | \$ 40,056,838 |
| Internal service fund activities to benefit governmental activities | 2,935,538 |
| Capital assets used in governmental activities are not financial | |
| resources and are therefore not reported in the fund statements. | 44 770 000 |
| Historical cost of capital assets | 41,770,680 |
| Accumulated depreciation | (20,374,597) |
| Capital assets, net | 21,396,083 |
| Net pension asset | 79,482 |
| Deferred inflows of resources reported in the fund statements but not | |
| the government-wide statements. | |
| Unavailable taxes receivable, net | 1,463,618 |
| Unavailable accounts receivable, net | 9,414,944 |
| Total | 10,878,562 |
| Contributions to pension plans in the current fiscal year are deferred | |
| outflows of resources on the Statement of Activities | 6,062,535 |
| Pension related deferrals | (247,171) |
| Liabilities that, because they are not due and payable in the current period, do not require current resources to pay and are therefore not | |
| reported in the fund statements. Limited obligation bonds | (EQ 24E E20) |
| Compensated absences | (58,345,538) (1,244,566) |
| Net pension liability | (6,966,262) |
| Other post-employment benefits | (12,195,763) |
| Law enforcement officers' special separation | (12,195,765) |
| allowance | (1,535,414) |
| Notes payable | (9,675,462) |
| Accrued interest payable | (299,335) |
| Total | (90,262,340) |
| - I Oldi | (30,202,340) |
| Total adjustment | (49,157,311) |
| Net position of governmental activities | \$ (9,100,473) |

NOTE 3 - RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (continued)

Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balance and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes reconciliation between net changes in fund balances – total governmental funds and changes in net position of governmental activities as reported in the government-wide statement of activities. The total adjustments of \$2,400,301 is comprised of the following:

| Description | Amount |
|--|---|
| Net change in fund balances - governmental funds | \$ (43,233,602) |
| Internal service fund activities to benefit governmental activities | (120,147) |
| Capital outlay expenditures recorded in the fund statements but capitalized as assets in the government-wide statements | 1,415,706 |
| Depreciation expense, the allocation of those assets over their useful lives, that is recorded in the Statement of Activities but not in the fund statements | (1,503,436) |
| Principal payments on debt owed are recorded as a use of funds in the fund statements but only the Statement of Net Position in the government-wide statements. | 2,340,773 |
| Increase in inventory on hand | 26,796 |
| Contributions to the pension plan in the current fiscal year are not included in the Statement of Activities | 4,702,078 |
| Expenses reported in the Statement of Activities that do not require the use of current resources to pay are not recorded as expenditures in the fund statements Compensated absences Other post-employment benefits Law enforcement officers' special separation allowance County portion of collective pension expense Interest expense | (11,162) (1,005,464) (54,057) (5,290,775) 5,323 |
| Revenues reported in the Statement of Activities that do not provide current resources are not recorded as revenues in the fund statements Unavailable ad valorem tax revenue Unavailable revenue related to public safety Unavailable revenue related to economic and physical development Unavailable revenue related to human services Total adjustments | (78,797) 1,497,005 131,411 345,047 2,400,301 |
| Change in net position of governmental activities | \$ (40,833,301) |

NOTE 4 - DEPOSITS

All of the County and Tourism Development Authority's deposits are either insured or collateralized by using one of two methods. Under the Dedicated Method, all deposits exceeding the federal depository insurance coverage level are collateralized with securities held by the County's or the Tourism Development Authority's agents in these units' names. Under the Pooling Method, which is a collateral pool, all uninsured deposits are collateralized with securities held by the State Treasurer's agent in the name of the State Treasurer. Since the State Treasurer is acting in a fiduciary capacity for the County and Tourism Development Authority, these deposits are considered to be held by their agents in the entities' names.

The amount of the pledged collateral is based on an approved averaging method for non-interest bearing deposits and the actual current balance for interest-bearing deposits. Depositories using the Pooling Method report to the State Treasurer the adequacy of their pooled collateral covering uninsured deposits. The State Treasurer does not confirm this information with the County, the Tourism Development Authority, or the escrow agent. Because of the inability to measure the exact amount of collateral pledged for the County or Tourism Development Authority under the Pooling Method, the potential exists for under collateralization, and this risk may increase in periods of high cash flows. However, the State Treasurer of North Carolina enforces strict standards of financial stability for each depository that collateralizes public deposits under the Pooling Method.

The State Treasurer enforces standards of minimum capitalization for all pooling method financial institutions. The County and Tourism Development Authority rely on the State Treasurer to monitor those financial institutions. The County and Tourism Development Authority analyze the financial soundness of any other financial institution used by the County or Tourism Development Authority. The County and Tourism Development Authority comply with the provisions of G.S. 159-31 when designating official depositories and verifying that deposits are properly secured. Neither the County nor Tourism Development Authority has a policy regarding custodial credit risk for deposits.

At June 30, 2017 the carrying amount of the County's deposits was \$3,102,992 and the bank balance was \$3,940,745. Of the bank balance, \$250,000 was covered by federal depository insurance and \$3,690,745 was covered by collateral held under the Pooling Method.

At June 30, 2017 the County had \$35,260 cash on hand.

At June 30, 2017 the carrying amount of the Tourism Development Authority's deposits was \$5,346 and the bank balance was \$8,584. The entire bank balance was covered by federal depository insurance at June 30, 2017.

NOTE 5 - INVESTMENTS

At June 30, 2017, the County's investment balances consisted of \$47,326,529 held in the North Carolina Capital Management Cash Portfolio, which carried a credit rating of AAAm by Standard and Poor's. The County's investments in the North Carolina Capital Management Trust are exempt from risk categorization because the County does not own any identifiable securities in these mutual funds. The County has no policy regarding credit risk. These amounts are included within cash on the statement of net position.

At June 30, 2017, the Tourism Development Authority's investments consisted of \$492,057 in the North Carolina Capital Management Trust's Cash Portfolio, which carried a credit rating of AAAm by Standard and Poor's. The Authority has no policy on credit risk. These amounts are included within cash on the statement of net position.

NOTE 6 - PROPERTY TAX - USE VALUE ASSESSMENT ON CERTAIN LANDS

In accordance with the general statutes, agriculture, horticulture, and forestland may be taxed by the County at the present-use value as opposed to market value. When the property loses its eligibility for use-value taxation, the property tax is recomputed at market value for the current year and the three preceding fiscal years, along with the accrued interest from the original due date. This tax is immediately due and payable. The following are property taxes that could become due if present use-value eligibility is lost. These amounts have not been recorded in the financial statements.

| Year Levied | Tax | Interest | Total | | | |
|-------------|------------------|---------------|-------|------------|--|--|
| 2016 | \$ 3,579,308 | \$ 205,812 | \$ | 3,785,120 | | |
| 2013-2015 | 10,578,680 | 79,341 | | 10,658,021 | | |
| Totals | \$ 14,157,988 | \$ 285,153 | \$ | 14,443,141 | | |

NOTE 7 - RECEIVABLES

Receivables at the government-wide level at June 30, 2017, were as follows:

| | Due from Other | | | | | | | | | | |
|---------------------------------|----------------|-------------|----|-----------|----|------------|----|-----------|----|-------------|--|
| Governmental Activities: | | Accounts | | Taxes | G | overnments | | Other | | Total | |
| General | \$ | 12,770,809 | \$ | 1,411,795 | \$ | 2,691,423 | \$ | - | \$ | 16,874,027 | |
| Other funds | | 91,209 | | 51,823 | | 715,549 | | 1,122,732 | | 1,981,313 | |
| Totals | | 12,862,018 | | 1,463,618 | | 3,406,972 | | 1,122,732 | | 18,855,340 | |
| Allowance for doubtful accounts | | (2,627,160) | | (657,157) | | - | | - | | (3,284,317) | |
| Receivables, net | \$ | 10,234,858 | \$ | 806,461 | \$ | 3,406,972 | \$ | 1,122,732 | \$ | 15,571,023 | |

| | | | Due | from Other | | |
|---------------------------------|-----------------|---------|-----|------------|-------|-----------------|
| Business-type Activities: | Accounts | Taxes | Go | vernments | Other | Total |
| Airport | \$ 52,755 | \$ - | \$ | - \$ | - | \$ 52,755 |
| County Water Fund | 480,997 | - | | - | - | 480,997 |
| Solid Waste Fund | 633,359 | - | | 36,120 | - | 669,479 |
| Transportation | 93,623 | - | | - | - | 93,623 |
| Totals | 1,260,734 | - | | 36,120 | - | 1,296,854 |
| Allowance for doubtful accounts | - | - | | - | - | - |
| Receivables, net | \$ 1,260,734 | \$ - | \$ | 36,120 \$ | - | \$ 1,296,854 |

The Tourism Development Authority's receivables are accounts receivable. Management expects all accounts receivable to be collected; therefore, no allowance for doubtful accounts has been recorded.

NOTE 7 – RECEIVABLES (continued)

Due from other governments at June 30, 2017 consists of the following:

| | Go | В | usiness-type | |
|--------------------------------|----|------------|--------------|------------|
| Description | | Activities | | Activities |
| Sales tax refunds | \$ | 1,019,220 | \$ | - |

NOTE 11 - PENSION PLAN OBLIGATIONS

Local Governmental Employee's Retirement System

Plan Description: Duplin County contributes to the statewide Local Governmental Employees' Retirement System (LGERS), a cost-sharing multi-employer defined benefit pension plan administered by the State of North Carolina. LEGERS membership is comprised of general employees and local law enforcement officers (LEOs) of participating local governmental entities. Article 3 of G.S. Chapter 128 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. Management of the plan is vested in the LGERS Board of Trustees, which consists of 13 members – nine appointed by the Governor, one appointed by the state Senate, one appointed by the state House of Representatives, and the State Treasurer and State Superintendent, who serve as ex-officio members. The Local Government Employees' Retirement System is included in the Comprehensive Annual Financial Report (CAFR) for the State of North Carolina. The State's CAFR includes financial statements and required supplementary information for LGERS.

That report may be obtained by writing to the Office of the State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27669-1410, or by calling (919) 981-5454 or at www.osc.nc.gov.

Benefits Provided: LGERS provides retirement and survivor benefits. Retirement benefits are determined as 1.85% of the member's average final compensation times the member's years of creditable service. A member's average final compensation is calculated as the average of a member's four highest consecutive years of compensation. Plan members are eligible to retire with full retirement benefits at age 65 with five years of creditable service, or at any age with 30 years of creditable service. Plan members are eligible to retire with partial retirement benefits at age 50 with 20 years of creditable service or at age 60 with five years of creditable service (age 55 for firefighters). Survivor benefits are available to eligible beneficiaries of members who die while in active service or within 180 days of their last day of service and who have either completed 20 years of creditable service regardless of age (15 years of creditable service for firefighters and rescue squad members who are killed in the line of duty) or have completed five years of service and have reached age 60. Eligible beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions. The plan does not provide for automatic post-retirement benefit increases. Increases are contingent upon actuarial gains of the plan.

LGERS plan members who are LEOs are eligible to retire with full retirement benefits at age 55 with five years of creditable service as an officer, or at any age with 30 years of creditable service. LEO plan members are eligible to retire with partial retirement benefits at age 50 with 15 years of creditable service as an officer. Survivor benefits are available to eligible beneficiaries of LEO members who die while in active service or within 180 days of their last day of service and who also have either completed 20 years of creditable services regardless of age, or have completed 15 years of service as a LEO and have reached age 50, or have completed five years of creditable service as a LEO and have reached age 55, or have completed 15 years of creditable service as a LEO if killed in the line of duty. Eligible beneficiaries my elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions.

Contributions: Contribution provisions are established by General Statute 128-30 and may be amended only by the North Carolina General Assembly. County employees are required to contribute 6% of their compensation. Employer contributions are actuarially determined and set annually by the LGERS Board of Trustees. The County's contractually required contribution rate for the year ended June 30, 2017 was 8% of compensation for law enforcement officers and 7.38% for general employees, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year. Contributions to the pension plan from the County were \$1,550,672 for the year ended June 30, 2017.

Refunds of Contributions: County employees who have terminated service as a contributing member of LGERS, may file an application for a refund of their contributions. By state law, refunds to members with at least five years of service include 4% interest. State law requires a 60 day waiting period after service termination before the refund may be paid. The acceptance of a refund payment cancels the individual's right to employer contributions or any other benefit provided by LGERS.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, the County reported a liability of \$7,591,805 for its proportionate share of the net pension liability. The net pension asset was measured as of June 30, 2016. The total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of December 31, 2015. The total pension liability was then rolled forward to the measurement date of June 30, 2016 utilizing update procedures incorporating the actuarial assumptions. The County's proportion of the net pension asset was based on a projection of the County's long-term share of future payroll covered by the pension plan, relative to the projected future payroll covered by the pension plan of all participating LGERS employers, actuarially determined. At June 30, 2016 the County's proportion was .35771%, which was an increase of .02799% from its proportion measured as of June 30, 2015.

For the year ended June 30, 2017, the County recognized pension expense of \$2,049,291. At June 30, 2017, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | | Deferred | | |
|---|----|-------------|------|--------------|
| | (| Outflows of | Defe | rred Inflows |
| | F | Resources | of F | Resources |
| Differences between expected and actual experience | \$ | 142,637 | \$ | 266,065 |
| Change of assumptions | | 519,971 | | - |
| Net differences between projected and actual earnings on pension plan investments | | 4,197,312 | | - |
| Changes in proportion and differences between County contributions and proportionate share of contributions Employer contributions subsequent to the measurement | | 172,542 | | - |
| date | | 1,545,389 | | - |
| Total | \$ | 6,577,851 | \$ | 266,065 |

\$1,545,389 reported as deferred outflows of resources related to pensions resulting from County contributions subsequent to the measurement date will be recognized as a decrease of the net pension liability in the year ended June 30, 2018. Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| Year ended June 30: | |
|---------------------|--------------|
| 2018 | 765,695 |
| 2019 | 765,896 |
| 2020 | 2,019,640 |
| 2021 | 1,215,166 |
| Total | \$ 4,766,397 |

Actuarial Assumptions: The total pension liability in the December 31, 2015 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 3.0 percent

Salary increases 3.50 to 7.75 percent, including inflation and productivity

factor

Investment rate of return 7.25 percent, net of pension plan investment expense,

including inflation

The plan currently uses mortality tables that vary by age, gender, employee group (i.e. general, law enforcement officer) and health status (i.e. disabled and healthy). The current mortality rates are based on published tables and based on studies that cover significant portions of the U.S. population. The healthy mortality rates also contain a provision to reflect future mortality improvements.

The actuarial assumptions used in the December 31, 2015 valuation were based on the results of an actuarial experience study for the period January 1, 2010 through December 31, 2014.

Future ad hoc COLA amounts are not considered to be substantively automatic and are therefore not included in the measurement.

The projected long-term investment returns and inflation assumptions are developed through review of current and historical capital markets data, sell-side investment research, consultant whitepapers, and historical performance of investment strategies. Fixed income return projections reflect current yields across the U.S.

Treasury yield curve and market expectations of forward yields projected and interpolated for multiple tenors and over multiple year horizons. Global public equity return projections are established through analysis of the equity risk premium and the fixed income return projections. Other asset categories and strategies' return projections reflect the forgoing and historical data analysis. These projections are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class as of June 30, 2016 are summarized in the following table:

| | | Long-Term |
|----------------------|------------|----------------|
| | Target | Expected Real |
| Asset Class | Allocation | Rate of Return |
| Fixed Income | 29.0% | 1.4% |
| Global Equity | 42.0% | 5.3% |
| Real Estate | 8.0% | 4.3% |
| Alternatives | 8.0% | 8.9% |
| Credit | 7.0% | 6.0% |
| Inflation Protection | 6.0% | 4.0% |
| Total | 100.0% | |

The information above is based on 30 year expectations developed with the consulting actuary for the 2014 asset liability and investment policy study for the North Carolina Retirement Systems, including LGERS. The long-term nominal rates of return are calculated from nominal rates by multiplicatively subtracting a long-term inflation assumption of 3.00%. All rates of return and inflation are annualized.

Discount rate: The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the County's proportionate share of the net pension asset to changes in the discount rate: The following presents the County's proportionate share of the net pension asset calculated using the discount rate of 7.25 percent, as well as what the County's proportionate share of the net pension asset or net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

| | 1% Decrease | Discount Rate | 1% Increase | |
|---|---------------|---------------|----------------|--|
| | (6.25%) | (7.25%) | (8.25%) | |
| County's proportionate share of the net pension liability | | | | |
| (asset) | \$ 18,018,894 | \$ 7,591,805 | \$ (1,117,676) | |

Pension plan fiduciary net position: Detailed information about the pension plan's fiduciary net position is available in the separately issued Comprehensive Annual Financial Report (CAFR) for the State of North Carolina.

Law Enforcement Officers' Special Separation Allowance

Plan Description: Duplin County administers a public employee retirement system (the Separation Allowance), a single-employer defined benefit pension plan that provides retirement benefits to the County's qualified sworn law enforcement officers under the age of 62 who have completed at least 30 years of creditable service or have attained 55 years of age and have completed five or more years of creditable service. The Separation Allowance is equal to 0.85 percent of the annual equivalent of the base rate of compensation most recently applicable to the officer for each year of creditable service. The retirement benefits are not subject to any increases in salary or retirement allowances that may be authorized by the General Assembly. Article 12D of G.S. Chapter 143 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly.

All full-time County law enforcement officers are covered by the Separation Allowance. At December 31, 2016, the Separation Allowance's membership consisted of:

| Retirees receiving benefits | 6 |
|-----------------------------|----|
| Active plan members | 76 |
| Total | 82 |

A separate report was not issued for the plan.

Summary of Significant Accounting Policies:

Basis of Accounting. The County has chosen to fund the Separation Allowance on a pay as you go basis by making a deposit to the Post Employment Benefits Fund from the General fund. The amount of this contribution is based on the prior year actuarial study. Pension expenditures are made from the Post Employment Benefits Fund, which is maintained on the modified accrual basis of accounting. Employer contributions to the plan are recognized when due and when the County has made a formal commitment to provide the contributions. Benefits are recognized when due and payable in accordance with the terms of the plan.

The Separation Allowance has no assets accumulated in a trust that meets the following criteria which are outlined in GASB Statement 73.

Actuarial Assumptions:

The Entry Age Normal actuarial cost method was used in the December 31, 2015 valuation. The total pension liability (TPL) was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation: 3.0 percent

Projected salary increases: 3.50 to 7.35 percent, including inflation and productivity factor

Discount rate: 3.86 percent

The discount rate used to measure the TPL is the weekly average of the Bond Buyer General Obligation 20-year Municipal Bond Index determined at the end of each month.

Deaths After Retirement (Healthy) – RP-2014 Health Annuitant base rates projected to the valuation date using MP-2015, projected forward generationally from the valuation date using MP-2015. Rates are adjusted by 104% for males and 100% for females.

Deaths Before Retirement - RP-2014 Employee base rates projected to the valuation date using MP-2015, projected forward generationally from the valuation date using MP-2015.

Deaths After Retirement (Beneficiary) – RP-2014 Health Annuitant base rates projected to the valuation date using MP-2015, projected forward generationally from the valuation date using MP-2015. Rates are adjusted by 123% for males and females.

Deaths After Retirement (Disabled) – RP-2014 Disabled Retiree base rates projected to the valuation date using MP-2015, projected forward generationally from the valuation date using MP-2015. Rates are adjusted by 103% for males and 99% for females.

Contributions:

The County is required by Article 12D of G.S. Chapter 143 to provide these retirement benefits and has chosen to fund the amounts necessary to cover the benefits earned on a pay as you go basis through appropriations made in the Post-Employment Benefits Fund operating budget. There were no contributions made by employees. The County's obligation to contribute to this plan is established and may be amended by the North Carolina General Assembly. Administration costs of the Separation Allowance are financed through investment earnings. The County paid \$48,977 as benefits came due for the reporting period.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, the County reported a total pension liability of \$1,535,414. The total pension liability was measured as of December 31, 2016 based on a December 31, 2015 actuarial valuation. The total pension liability was rolled forward to December 31, 2016 utilizing update procedures incorporating the actuarial assumptions. For the year ended June 30, 2017, the County recognized pension expense of \$137,672.

| Outflows of Resources Differences between expected and actual \$ experience Change of assumptions County benefit payments and plan administrative 19,0 | | erred Intflows Resources |
|---|-------|-----------------------------|
| Differences between expected and actual \$ experience Change of assumptions County benefit payments and plan administrative 19,0 | | Resources |
| experience Change of assumptions County benefit payments and plan administrative 19,0 | - \$ | |
| County benefit payments and plan administrative 19,0 | Ψ | - |
| · | - | 34,051 |
| expense made subsequent to the measurement | 14 | - |
| date | | |
| Total \$ 19,0- | 14 \$ | 34,051 |

\$19,044 reported as deferred outflows of resources related to pensions resulting from benefit payments made and administrative expenses incurred subsequent to the measurement date will be recognized as a decrease of the total pension liability in the year ended June 30, 2018. Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| Year ended June 30: | |
|---------------------|----------------|
| 2018 | (6,461) |
| 2019 | (6,461) |
| 2020 | (6,461) |
| 2021 | (6,461) |
| 2022 | (6,461) |
| Thereafter | (1,746) |
| Total | \$ (34,051) |

\$19,044 paid as benefits came due subsequent to the measurement date are reported as deferred outflows of resources.

Sensitivity of the County's total pension liability to changes in the discount rate. The following presents the County's total pension liability calculated using the discount rate of 3.86 percent, as well as what the County's total pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.86 percent) or 1-percentage-point higher (4.86 percent) than the current rate:

| | | | | Current | |
|-------------------------|----|-----------|----|-----------|-----------------|
| | | 1% | [| Discount | 1% |

| Difference between expected and actuarial experience | - |
| Changes of assumptions and other inputs | (40,512) |
| Benefit payments | (48,977) |
| Other | - |
| Total pension liability, ending | \$ 1,535,414 |

The plan currently uses mortality tables that vary by age, and health status (i.e. disabled and healthy). The current mortality rates are based on published tables and based on studies that cover significant portions of the U.S. population. The healthy mortality rates also contain a provision to reflect future mortality improvements.

Supplemental Retirement Income Plan for Law Enforcement Officers

Plan Description. The County contributes to the Supplemental Retirement Income Plan (Plan), a defined contribution pension plan administered by the Department of State Treasurer and a Board of Trustees. The Plan provides retirement benefits to law enforcement officers employed by the County. Article 5 of G.S. Chapter 135 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. The Supplemental Retirement Income Plan for Law Enforcement Officers is included in the comprehensive Annual Financial Report (CAFR) for the State of North Carolina. The State's CAFR includes the pension trust fund financial statements for the Internal Revenue Code Section 401(k) plan that includes the Supplemental Retirement Income Plan for Law Enforcement Officers. That report may be obtained by writing to the Office of the State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, or by calling (919) 981-5454.

Funding Policy. Article 12E of G.S. Chapter 143 requires the County to contribute each month an amount equal to five percent of each officer's salary, and all amounts contributed are vested immediately. Also, the law enforcement officers may make voluntary contributions to the plan. Contributions for the year ended June 30, 2017 were \$288,747, which includes \$159,768 from the County and \$49,799 from the law enforcement officers.

Deferred Compensation Plan

The County offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, which is available to all County employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

Registers of Deeds' Supplemental Pension Fund

Plan Description. Duplin County also contributes to the Registers of Deeds' Supplemental Pension Fund (RODSPF), a noncontributory, defined benefit plan administered by the North Carolina Department of State Treasurer. The RODSPF provides supplemental pension benefits to any eligible county register of deeds that is retired under the Local Government Employees' Retirement System (LGERS) or an equivalent locally sponsored plan. Article 3 of G.S. Chapter 161 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. Management of the plan is vested in the LGERS Board of Trustees, which consists of 13 members – nine appointed by the Governor, one appointed by the state Senate, one appointed by the state House of Representatives, and the State Treasurer and the State Superintendent, who serve as ex-officio members. The Registers of Deeds' Supplemental Pension Fund is included in the Comprehensive Annual Financial Report (CAFR) for the State of North Carolina. The State's CAFR includes financial statements and required supplementary information for the Registers of Deeds' Supplemental Pension Fund. That report may be obtained by writing to the Office of the State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, or by calling (919) 981-5454, or at www.osc.nc.gov.

Benefits Provided: An individual's benefits for the year are calculated as a share of accumulated contributions available for benefits for that year, subject to certain statutory limits. An individual's eligibility is based on at least 10 years of service as a register of deeds with the individual's share increasing with years of service. Because of the statutory limits noted above, not all contributions available for benefits are distributed.

Contributions: Benefits and administrative expenses are funded by investment income and 1.5% of the receipts collected by each County Commission under Article 1 of Chapter 161 of the North Carolina General Statutes. The statutory contribution currently has no relationship to the actuary's required contribution. The actuarially determined contribution this year and for the foreseeable future is zero. Registers of Deeds do not contribute. Contribution provisions are established by General Statute 161-50 and may be amended only by the North Carolina General Assembly. Contributions to the pension plan from the County were \$5,283 for the year ended June 30, 2017.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, the County reported an asset of \$79,482 for its proportionate share of the net pension asset. The net pension asset was measured as of June 30, 2016. The total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of December 31, 2015. The total pension liability was then rolled forward to the measurement date of June 30, 2016 utilizing update procedures incorporating the actuarial assumptions. The County's proportion of the net pension asset was based on the County's share of contributions to the pension plan, relative to contributions to the pension plan of all participating RODSPF employers. At June 30, 2016, the County's proportion was .42513%, which is an increase of .00929% from its proportion measured as of June 30, 2015.

For the year ended June 30, 2017, the County recognized pension expense of \$4,640. At June 30, 2017, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | | Deferred | | |
|--|----|------------|--------|------------|
| | O | utflows of | Deferr | ed Inflows |
| | R | esources | of Re | esources |
| Differences between expected and actual experience | \$ | 85 | \$ | 1,029 |
| Changes of assumptions | | 21,176 | | - |
| Net differences between projected and actual earnings on | | | | |
| pension plan investments | | 136 | | - |
| Changes in proportion and differences between County | | | | |
| contributions and proportionate share of contributions | | - | | 2,037 |
| County contributions subsequent to measurement date | | 5,283 | | _ |
| Total | \$ | 26,680 | \$ | 3,066 |

\$5,283 reported as deferred outflows of resources related to pensions resulting from County contributions subsequent to the measurement date will be recognized as an increase of net pension asset in the year ended June 30, 2018. Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| Year ended Ju | une 30: | |
|---------------|---------|--------------|
| 2018 | | 7,403 |
| 2019 | | 8,349 |
| 2020 | | 3,468 |
| 2021 | | (889) |
| Total | | \$ 18,331 |

Actuarial Assumptions: The total pension liability in the December 31, 2015 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 3.0 percent

Salary increases 3.5 to 7.75 percent, including inflation and productivity factor Investment rate of return 3.75 percent, net of pension plan investment expense,

including inflation

The plan currently uses mortality tables that vary by age, gender, employee group (i.e. general, law enforcement officer) and health status (i.e. disabled and healthy). The current mortality rates are based on published tables and based on studies that cover significant portions of the U.S. population. The healthy mortality rates also contain a provision to reflect future mortality improvements.

The actuarial assumptions used in the December 31, 2015 valuation were based on the results of an actuarial experience study for the period January 1, 2010 through December 31, 2014.

Future ad hoc COLA amounts are not considered to be substantively automatic and are therefore not included in the measurement.

The projected long-term investment returns and inflation assumptions are developed through review of current and historical capital markets data, sell-side investment research, consultant whitepapers, and historical performance of investment strategies. Fixed income return projections reflect current yields across the U.S. Treasury yield curve and market expectations of forward yields projected and interpolated for multiple tenors and over multiple year horizons. These projections are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The adopted asset allocation policy for the RODSPF is 100% in the fixed income asset class. The best estimate of arithmetic real rate of return for the fixed income asset as of June 30, 2016 is 1.4%.

The information above is based on 30 year expectations developed with the consulting actuary for the 2016 asset liability and investment policy study for the North Carolina Retirement Systems, including LGERS. The long-term nominal rates of return underlying the real rates of return are arithmetic annualized figures. The real rates of return are calculated from nominal rates by multiplicatively subtracting a long-term inflation assumption of 3.19%. All rates of return and inflation are annualized.

Discount rate: The discount rate used to measure the total pension liability was 3.75%. The projection of cash flows used to determine the discount rate assumed that contributions from employers will be made at statutorily required rates. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the County's proportionate share of the net pension asset to changes in the discount rate: The following presents the County's proportionate share of the net pension asset calculated using the discount rate of 3.75 percent, as well as what the County's proportionate share of the net pension asset would be if it were calculated using a discount rate that is 1-percentage-point lower (2.75 percent) or 1-percentage-point higher (4.75 percent) than the current rate:

| | 1% Decrease | | Discount Rate | 1 | 1% Increase |
|---|-------------|----------|---------------|-------|-------------|
| | (| (2.75%) | (3.75%) | | (4.75%) |
| County's proportionate share of the net pension liability | | | | | |
| (asset) | \$ | (64,088) | \$ (79,48) | 2) \$ | (92,415) |

Pension plan fiduciary net position: Detailed information about the pension plan's fiduciary net position is available in the separately issued Comprehensive Annual Financial Report (CAFR) for the State of North Carolina.

NOTE 12 - OTHER POST-EMPLOYMENT BENEFIT

Healthcare Benefits

Plan Description. Under County policy, Duplin County provides post-employment healthcare benefits through a single-employer defined benefit Healthcare Benefits Plan (HCB Plan) to retirees of the County who were full-time employees and who participate in the North Carolina Local Governmental Employees' Retirement System (System) and participated in the health insurance plan for twelve months and have at least twenty-five years of non-continuous service with Duplin County at the time of retirement if hired between August 18, 2008 and September 30, 2014 (or, if hired before August 18, 2008, ten years of continuous full-time employment with Duplin County immediately preceding retirement). For full-time employees hired on or after October 1, 2014, they must have participated in the health insurance plan for twelve months and have at least twenty-five years of continuous service with Duplin County at the time of retirement. Also, the County retirees can purchase coverage for their dependents at the County's group rates. The Board of Commissioners may amend the benefit provisions. A separate report was not issued for the plan.

NOTE 12 - OTHER POST-EMPLOYMENT BENEFIT (continued)

Membership of the HCB Plan consisted of the following at December 31, 2015, the date of the latest actuarial valuation:

| Retirees and dependents receiving benefits | 100 |
|--|-----|
| Active plan members - general | 443 |
| Active plan members - law enforcement officers | 76 |
| Total | 619 |

Funding Policy. The Board of Commissioners established and may amend the contribution requirements of plan members. The County members pay an average of \$558 per month for coverage. The County has chosen to fund the healthcare benefits on a pay as you go basis.

The current annual required contribution (ARC) rate is 8.87% of annual covered payroll. For the current year, the County contributed \$406,111 or 28.36% of annual covered payroll. The County is self-insured for healthcare coverage with stop loss claims over \$75,000 through private insurers. The County's obligation to contribute to HCB Plan is established and may be amended by the Board of Commissioners.

Summary of Significant Accounting Policies. Post-employment expenditures are made from the General Fund, which is maintained on the modified accrual basis of accounting. No funds are set aside to pay benefits and administration costs. These expenditures are paid as they come due.

Annual OPEB Cost and Net OPEB Obligation. The County's annual OPEB cost (expense) is calculated based on the annual required contribution of the employer (ARC), and amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

The following table shows the components of the County's annual OPEB cost for the current year, the amount actually contributed to the plan, and changes in the County's net OPEB obligation for the post-employment healthcare benefits:

| Employer annual required contribution | \$ 1,432,184 |
|--|------------------|
| Interest on net OPEB obligation | 489,717 |
| Adjustment to annual required contribution | (467,832) |
| Annual OPEB cost | 1,454,069 |
| Employer contributions made | (406,111) |
| Increase in net OPEB obligation | 1,047,958 |
| Net OPEB obligation, beginning of year | 12,242,936 |
| Net OPEB obligation, end of year | \$ 13,290,894 |

3 Year Trend Information

| | Percentage of | | | | |
|-------------------|---------------|--------|------------------|----|------------|
| | Annual | OPEB | Annual OPEB | | Net OPEB |
| Fiscal Year Ended | Co | ost | Cost Contributed | | Obligation |
| June 30, 2017 | \$ 1,4 | 54,069 | 27.90% | \$ | 13,290,894 |
| June 30, 2016 | 1,6 | 40,254 | 34.80% | | 12,242,936 |
| June 30, 2015 | 1,6 | 65,095 | 20.63% | | 11,173,099 |

NOTE 12 – OTHER POST-EMPLOYMENT BENEFIT (continued)

Funded Status and Funding Progress. As of December 31, 2015, the most recent actuarial valuation date, the plan was not funded. The actuarial accrued liability for benefits and, thus, the unfunded actuarial accrued liability (UAAL) was \$17,401,161. The covered payroll (annual payroll of active employees covered by the plan) was \$19,377,499 and the ratio of the UAAL to the covered payroll was 89.8%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and healthcare trends. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets are increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Actuarial Methods and Assumptions. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between employer and plan members at that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the December 31, 2015 actuarial valuation, the projected unit credit actuarial cost method was used. The actuarial assumptions include a 4.00% investment rate of return (net of administrative expenses), which is the expected long-term investment returns on the employer's own investments calculated based on the funded level of the plan at the valuation date, and an annual medical cost trend varied between 7.75% and 5.00% annually. Both rates included a 3.00% inflation assumption. The actuarial value of assets, of any, was determined using techniques that spread the effects of short-term volatility in the market value of investments over a 5 year period. The UAAL is being amortized as a level percentage of projected pay on an open basis. The remaining amortization period at December 31, 2015, was 30 years.

NOTE 13 - OTHER EMPLOYMENT BENEFIT

The County has elected to provide death benefits to employees through the Death Benefit Plan for members of the Local Governmental Employees' Retirement System (Death Benefit Plan), a multiple-employer, State-administered, cost-sharing plan funded on a one-year term cost basis. The beneficiaries of those employees who die in active service after one year of contributing membership in the System, or who die within 180 days after retirement or termination of service and have at least one year of contributing membership service in the System at the time of death are eligible for death benefits. Lump sum death benefit payments to beneficiaries are equal to the employee's 12 highest month's salary in a row during the 24 months prior to the employee's death, but the benefit will be a minimum of \$25,000 and will not exceed \$50,000. All death benefit payments are made from the Death Benefit Plan. The County has no liability beyond the payment of monthly contributions. The contributions to the Death Benefit Plan cannot be separated between the post-employment benefit amount and the other benefit amount. The County considers these contributions to be immaterial.

NOTE 14 - DEFERRED OUTFLOWS AND INFLOWS OF RESOURCES

| | Deferred | | | | |
|---|----------|-----------|------------------|----------|--|
| | 0 | utlows of | Deferred Inflows | | |

| Prepaid taxes not yet earned (Special Revenue) | | - | | 624 | |
| Totals | \$ | 6,818,377 | \$ | 369,570 | |

NOTE 15 - RISK MANAGEMENT

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; error and omissions; injuries to employees; and natural disasters. The County obtains property insurance coverage and general liability coverage for these risks through commercial carriers. The County also obtains health insurance for County employees through a self-insured plan. Based on past experience, management believes that the County's coverage's are sufficient.

In accordance with G.S. 159-29, the County's employees that have access to \$100 or more at any given time of the County's funds are performance bonded through a commercial surety bond. The Director of Finance and tax collector are each individually bonded for \$100,000 each. The remaining employees that have access to funds are bonded under a blanket bond for \$250,000.

The County carries commercial insurance for all other risks of loss. There have been no significant reductions in insurance coverage from the previous year and settled claims from these risks have not exceeded the total commercial insurance coverage in any of the last three fiscal years. The County does not carry flood insurance as there doesn't appear to be any exposure to County-owned properties.

NOTE 16 – CONTINGENT LIABILITIES

At June 30, 2017, the County was a defendant to various lawsuits. In the opinion of the County's management and the County attorney, the ultimate effect of these legal matters will not have a material adverse effect on the County's financial position.

NOTE 17 – LONG-TERM OBLIGATIONS

General Obligation Indebtedness

All general obligation bonds serviced by the County's Water Districts are collateralized by the full faith, credit and taxing power of the County. Duplin County Water Districts issue general obligation bonds to provide funds for the acquisition and construction of major water system capital improvements. These bonds, which are recorded in each individual Water District's Fund, are collateralized by the full faith, credit, and taxing power of the Districts. Principal and interest payments are appropriated when due.

All of the 2012 Advance Refunding Bonds issued by the water districts (blended component unit) were sold to Duplin County. Due to the blended presentation of the water districts these bonds have been reclassified as Due from water districts – GO Bonds and Due to County – GO Bonds in the Statement of Fund Net Position (Exhibit 6). Subsequently, these balances, along with the associated investment earnings and interest expense have been eliminated in the government-wide financial statements (Exhibits 1 and 2)

In April, 2016, the County issued \$52,640,000 in Limited Obligation Bonds to finance various school improvement projects. The bonds were issued at a premium of \$7,874,251, which is being amortized over the term of the bonds.

The County's limited obligation bonds payable at June 30, 2017 are comprised of the following individual issues:

Limited obligation bonds serviced by the General Fund:

\$52,640,000 Limited Obligation Bonds, requiring annual payments ranging from \$1,775,000 due in 2017 up to \$3,875,000 in the final year of 2036. Interest is payable semiannually at rates ranging from 3-5% through the life of the debt issue.

\$ 50,865,000

NOTE 17 - LONG-TERM OBLIGATIONS (continued)

Limited obligation bonds serviced by the Water Districts:

Water District B - \$1,920,000 2012 Advance Refunding Bonds due in annual principal installments ranging from \$70,000 to \$100,000 plus semi-annual interest payments through June 1, 2034; interest at 3.68 \$ 1,545,000 percent. Water District D - \$3,760,000 2012 Advance Refunding Bonds due in annual principal installments ranging from \$110,000 to \$185,000 plus semi-annual interest payments through June 1, 2037; interest at 3.98 percent. 3,195,000 Water District E - \$3,595,000 2012 Advance Refunding Bonds due in annual principal installments ranging from \$95,000 to \$190,000 plus semi-annual interest payments through June 1, 2037; interest at 4.02 percent. 3,075,000 Water District F - \$4,275,000 2012 Advance Refunding Bonds due in annual principal installments ranging from \$120,000 to \$205,000 plus semi-annual interest payments through June 1, 2037; interest at 3.97 percent. 3,620,000 Water District G - \$2,840,000 2012 Advance Refunding Bonds due in annual principal installments ranging from \$80,000 to \$135,000 plus semi-annual interest payments through June 1, 2037; interest at 3.97 percent. 2,410,000 Total general obligation bonds \$ 13,845,000

Annual debt service requirements to maturity for the County's general obligation bonds are as follows:

| | Governmental-type Activities | | | | Business-type Activities | | | |
|--|------------------------------|----|------------|----|--------------------------|----|-----------|--|
| Fiscal Year Ending June 30, | Principal | | Interest | | Principal | | Interest | |

| 2043-2047 | | 2,091,425 | | 219,231 | 108,500 | | 37,234 | |
| 2048-2052 | | - | | - | 127,315 | | 17,807 | |
| 2053-2054 | | - | | - | 56,907 | | 943 | |
| Totals | \$ | 9,675,462 | \$ | 7,087,944 | \$ 3,410,297 | \$ | 893,061 | |

Advance Refunding

On July 12, 2012, the County issued \$16,861,772 in general obligation advance refunding bonds to provide resources to purchase U.S. Government securities that were placed in an irrevocable trust for the purpose of general resources for all future debt service payments of \$16,593,300 of general obligation bonds in all of the County's water districts. As a result, the refunded bonds are considered to be defeased and the liability will be removed from the business-type activities column of the statement of net position beginning with the fiscal year that began on July 1, 2012. The reacquisition price exceeded the net carrying amount of the old debt by \$268,471. This amount is being netted against the new debt and amortized over the life of the refunded debt which is shorter than the life of the new debt issued. This advance refunding was undertaken to reduce total debt service payments over the next 25 years by \$3,137,797 and resulted in an economic gain of \$1,853,412.

Debt Related to Capital Activities – Of the total Governmental Activities debt listed, only \$9,675,452 relates to assets the County holds title. Unspent restricted cash related to this debt amounts to \$12,968,939.

Long-Term Obligation Activity

The following is a summary of changes in the County's long-term obligations for the year ended June 30, 2017:

| Governmental Activities | Beginning Balances | Increases | Decreases | End | ding Balances | rrent Portion of Balance |
|----------------------------------|-----------------------|-----------------|-------------------|-----|---------------|---------------------------------|
| Limited obligation bonds | \$ 60,514,251 | \$ - | \$ (2,168,713) | | 58,345,538 | \$ 1,705,000 |

Compensated absences for governmental activities typically have been liquidated in the general fund and are accounted for on a LIFO basis, assuming that employees are taking leave time as it is earned.

NOTE 18 – CONDUIT DEBT OBLIGATIONS

Duplin County Industrial Facility and Pollution Control Financing Authority have issued industrial revenue bonds to provide financial assistance to private businesses for economic development purposes. These bonds are secured by the properties financed as well as letters of credit and are payable solely from payments received from the private businesses served by the bond issuance. The County, the Authority, the State, nor any political subdivision thereof is obligated in any manner for the repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements. As of June 30, 2017, there were no industrial revenue bonds outstanding.

NOTE 19 - INTERFUND BALANCES AND ACTIVITY

Transfers to/from other funds during the year ended June 30, 2017, consist of the following:

| Transfer Out | Transfer In | Amount |
|------------------------------------|----------------------------|-----------------|
| | Automation Enhancement and | |
| General Fund | Preservation Fund | \$ 19,160 |
| General Fund | Debt Service Fund | 3,374,946 |
| General Fund | Hospital Insurance Fund | 178,000 |
| General Fund | Airport Commisson Fund | 142,757 |
| General Fund | Capital Project Fund | 17,205 |
| Capital Project Fund - School Fund | Debt Service Fund | 1,199,945 |
| Water Fund | Debt Service Fund | 29,699 |
| | | \$ 3,732,068 |

The transfers from the General Fund to the Automation Enhancement and Preservation Fund, and the Hospital Insurance Fund were made in accordance with the annual budget ordinance to provide financial resources sufficient to support the objectives of these special revenue, capital project, and internal service funds.

The transfers to the Debt Service Fund from the Capital Project Fund – School Fund and Water Fund were made to provide sufficient financial resources to make the annual debt payments.

The transfer from the General Fund to the Airport Commission Fund was made in accordance with the annual budget ordinance to provide operating resources to the Airport.

The transfer from the General Fund to the Capital Project Fund was made to release funds previously committed by the Board of County Commissioners.

Amounts due to/from other funds at June 30, 2017 consist of the following:

| Due To | Due From | В | alance |
|-------------------------|---|----|--------|
| General Fund | Emergency Telephone System Fund | \$ | 59 |
| General Fund | Agency Fund | | 3,011 |
| General Fund | Hospital Insurance Fund | | 1,475 |
| Hospital Insurance Fund | General Fund Automation Enhancement and | | 2,923 |
| Hospital Insurance Fund | Preservation Fund | | 630 |
| | | \$ | 8,098 |

The balances due between the governmental funds are the result of the timing of cash payments made between the funds. The County pools monies from several funds to better facilitate cash receipts and disbursements. These balances are the residual amounts owed at June 30, 2017.

NOTE 20 - NET INVESTMENT IN CAPITAL ASSETS

| | Governmental | Е | Business-type |
|----------------------------------|---------------|----|---------------|
| | Activities | | Activities |
| Capital assets | \$ 21,396,083 | \$ | 54,466,435 |
| Notes payable | (9,675,462) | | (14,221,311) |
| Limited obligation bonds | - | | (3,410,297) |
| Net investment in capital assets | \$ 11,720,621 | \$ | 36,834,827 |

NOTE 21 – FUND BALANCE

Duplin County has a revenue spending policy that provides guidance for programs with multiple revenue sources. The Finance Officer will use resources in the following hierarchy: bond proceeds, federal funds, State funds, local non-county funds, and county funds. For purposes of fund balance classification, expenditures are to be spent from restricted fund balance first, followed in order by committed fund balance, assigned fund balance, and lastly, unassigned fund balance. The Finance Officer has the authority to deviate from this policy if it is in the best interest of the County.

The following schedule provides management and citizens with information on the portion of General fund balance that is available for appropriation:

| Total fund balance - General Fund | \$ 18,170,293 |
|--|------------------|
| Less: | |
| Inventories | 247,689 |
| Stabilization by state statute | 4,557,627 |
| Appropriated fund balance in 2016 budget | 2,912,341 |
| Inspections | 88,652 |
| Event Center | 90,361 |
| Federally seized assets | 48,416 |
| Grants/projects | 340,665 |
| Health | 574,967 |
| Sheriff | 63,997 |
| Daycare | 1,002 |
| Economic development | 591,119 |
| Capital improvements | 899,367 |
| Remaining fund balance | \$ 7,754,090 |

Duplin County had adopted a minimum fund balance policy for the General Fund which instructs management to conduct business of the County in such a manner that available fund balance is at least equal to or greater than 8% of budgeted expenditures.

The outstanding encumbrances are amounts needed to pay any commitments related to purchase orders and contracts that remain unperformed at year-end.

| June 30, | 2017 |
|---------------|---------------|
| Encumbrances: | |
| General Fund | \$ 687,503 |
| | |

NOTE 22 – RELATED ORGANIZATION

The County's governing board is responsible for appointing the members of the board of the Industrial Revenue Bond Authority, but the County's accountability for this organization does not extend beyond making these appointments. The Authority exists to issue and service revenue bond debt for private business for economic development purposes. Its primary revenues are the payments to service the issued debt that are received from the businesses involved. The County is not responsible for the debt issued by the Authority and the Authority's debt is not included in determining the County's legal debt limit.

NOTE 23 – JOINT VENTURES

The County in conjunction with several other counties participates in a joint venture to operate Eastpointe Human Services, a managed care organization. Each participating government appoints board members to Eastpointe's board. The County has an ongoing financial responsibility for the joint venture because Eastpointe's continued existence depends on the participating governments' continued funding. The County contributed \$224,474 to the joint venture during the year ended June 30, 2017. None of the participating governments have any equity interest in the joint venture, so no equity interest has been reflected in the County's financial statements at June 30, 2017. Complete financial statements for Eastpointe Human Services can be obtained from their office in Beulaville, North Carolina.

The County in conjunction with the State of North Carolina and the Duplin County Board of Education participates in a joint venture to operate James Sprunt Community College. Each of the three participants appoints four members of the thirteen member board of trustees of the community college. The president of the community college's student government serves as an ex officio non-voting member of the community college's board of trustees. The community college is included as a component unit of the State. The County has the basic responsibility for providing funding for the facilities of the community college and also provides some financial support for the community college's operations. The County has an ongoing financial responsibility for the community college because of the statutory responsibilities to provide funding for the community college's facilities. The County contributed \$1,764,000 and \$135,000 to the community college for operating and capital purposes, respectively, during the fiscal year ended June 30, 2017. The participating governments do not have any equity interest in the joint venture; therefore, no equity interest has been reflected in the County's financial statements at June 30, 2017. Complete financial statements for the community college may be obtained from the community college's administrative offices at Highway 11 South, Kenansville, North Carolina.

NOTE 24 - BENEFIT PAYMENTS ISSUED BY THE STATE

The amounts listed below were paid directly to individual recipients by the State from federal and state moneys. Duplin County personnel are involved with certain functions, primarily eligibility determinations that cause benefit payments to be issued by the state. These amounts disclose the additional aid to County recipients that do not appear in the general purpose financial statements because they are not revenues and expenditures of the County.

| Program | Federal | State |
|------------------------------------|---------------|------------|
| Medicaid | \$ 55,005,363 | \$ - |
| State Children's Insurance Program | 1,333,201 | - |
| Food stamps | 16,400,489 | - |
| Women, infants, and children | 1,805,008 | - |

| IV-E Foster Care and Extend Max | 13,652 | 3,407 |
| IV-E Foster Care and Extend Reg | 68,465 | 17,060 |
| Refugee Assistance | 8,711 | - |
| TANF Payments and Penalties | 234,253 | - |
| CWS Adopt Subsidy and Vendor | - | 98,656 |
| SAA/SAD HB 1030 | - | 27,098 |
| SC/SA Domicillary Care Payment | - | 464,029 |
| State Foster Home | - | 38,079 |
| Totals | \$ 75,078,965 | \$ 706,061 |

NOTE 25 - SUMMARY DISCLOSURE OF SIGNIFICANT COMMITMENTS AND CONTINGENCIES

Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as not being appropriate expenditures under the grant agreements. Such audits could result in the refund of grant moneys to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the refund of grant moneys.

NOTE 26 - SUBSEQUENT EVENTS

Management has evaluated subsequent events through February 19, 2018, the date on which the financial statements were available to be issued.

NOTE 27 - CHANGE IN ACCOUNTING PRINCIPLES/RESTATEMENTS

The County implemented Governmental Accounting Standards Board (GASB) No. Statement 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68, in the fiscal year ending June 30, 2017. The implementation of the statement required the County to record beginning and total pension liability and the effects on net position of benefit payments and administrative expenses paid by the County to the Law Enforcement Officers' Special Separation Allowance during the measurement period. As a result, net position for the governmental activities decreased \$859,927.

REQUIRED SUPPLEMENTARY INFORMATION

This section contains additional information required by generally accepted accounting principles.

Law Enforcement Officers' Special Separation Allowance:

- Schedule of Funding Progress
- Schedule of Employer Contributions
- Notes to the Required Schedules

Other Postemployment Benefits:

- Schedule of Funding Progress
- Schedule of Employer Contributions
- Notes to the Required Schedules

Local Government Employees' Retirement System:

- Schedule of County's Proportionate Share of Net Pension Asset
- Schedule of County Contributions

Register of Deeds:

- Schedule of County's Proportionate Share of Net Pension Asset
- Schedule of County Contributions

SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

Fire District Fund - This fund accounts for the ad valorem tax levies of the seven fire districts in Duplin County.

Revaluation Fund - This fund accounts for the accumulation of resources to be used for the octennial revaluation of real property.

Community Development Revolving Loan Fund -This fund accounts for developmental loans to local private businesses.

Emergency Telephone System Fund - This fund was established in accordance with North Carolina law to account for the accumulation of telephone surcharges to be used for emergency telephone services.

Grant Project Funds - These funds account for sundry projects funded by federal grants, state grants, or a combination of both federal and state grants. Separate funds account for revenues and expenditures associated with each grant's intended purpose.

School Planning Allocation Fund -This fund accounts for lottery revenues designated for public school capital expenditures.

Automation Enhancement and Preservation Fund -This fund accounts for funds to be used for computer and imaging technology in the register of deeds office.

County Trust Fund -This fund accounts for funds to be used for restricted intergovernmental revenues and direct contributions which are for the direct benefit of County departments.

CAPITAL PROJECT FUNDS

Capital Project Funds are used to account for financial resources to be used for the acquisition and construction of major capital facilities other than those financed by Proprietary and Trust funds.

Industrial Expansion Capital Project Fund - This fund accounts for industrial expansion projects. The projects will be financed by grants, loans, and transfers from other funds.

Capital Projects Fund - This fund accounts for various capital projects undertaken by the County, including the capital improvement projects for the County school system.

Capital Project Fund - School Fund -This fund accounts for sales tax revenue that is restricted for school related capital projects.

Capital Project Fund - JSCC - This fund accounts for funds restricted for capital projects at James Sprunt Community College.

ENTERPRISE FUNDS

The Enterprise Fund is used to account for operations that are financed and operated in a manner similar to private business enterprises -where the intent of the governing board is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or where the governing body has decided that periodic determination of net income is appropriate for accountability purposes.

Airport Commission Fund -This fund is used to account for the operations and maintenance of public airport facilities and provide hangar rental and fueling services to the flying public.

Solid Waste Fund -This fund is used to account for the collection, recycle, and disposal of solid waste.

Transportation Development Plan Fund- This fund is used to transport citizens for human service and community service needs.

Water Fund -This fund is used to account for the County's water operations.

TRUST AND AGENCY FUNDS

Trust Funds are used to account for assets held by the County in a trustee capacity. Agency Funds are used to account for assets held by the County as an agent for individuals, private organizations, other governments, and/or other funds.

County Agency Fund - This fund accounts for the monies held in trust by the County for various departments.

Social Services Fund - This fund accounts for monies held by the Social Service Department for the benefit of certain individuals in the county.

Motor Vehicle Tax Fund -This fund accounts for the proceeds of the motor vehicle taxes collected by the County on behalf of municipalities within the County.

Register of Deeds Trust Fund -This fund accounts for the five dollars of each fee collected by the register of deeds for registering or filing a deed of trust or mortgage to remit to North Carolina.

INTERNAL SERVICE FUND

The Internal Service Fund is used to account for the financing of goods and services provided by one department or agency to other departments or agencies of the County on a cost reimbursement basis.

Hospital Insurance Fund -This fund is used to account for the payment of health insurance premiums from County and employee contributions and pays for the costs of the plan. All contributions to the fund remain in the fund for the plan to use in subsequent years.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of County Commissioners Duplin County, North Carolina

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Duplin County, North Carolina (the "County"), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the County's basic financial statements and have issued our report thereon dated February 19, 2018. The financial statements of Duplin County Tourism Development Authority were not audited in accordance with *Governmental Auditing Standards*.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Duplin County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB UNIFORM GUIDANCE AND THE STATE SINGLE AUDIT IMPLEMENTATION ACT

To the Board of County Commissioners Duplin County, North Carolina

Report on Compliance for Each Major Federal Program

We have audited Duplin County, North Carolina's (the "County") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* and the *Audit Manual for Governmental Auditors in North Carolina*, issued by the Local Government Commission, that could have a direct and material effect on each of the County's major federal programs for the year ended June 30, 2017. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and the State Single Audit Implementation Act. Those standards, the Uniform Guidance, and the State Single Audit Implementation Act require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County's compliance.

Opinion on Each Major Federal Program

In our opinion, Duplin County, North Carolina, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017.

Report on Internal Control over Compliance

Management of Duplin County, North Carolina, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be significant deficiencies or material weaknesses and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Notes to the Schedule of Expenditures of Federal and State Awards

NOTE 1 – BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal and state awards (SEFSA) includes the federal and state grant activity of Duplin County, North Carolina under the programs of the federal governments and the State of North Carolina for the year ended June 30, 2017. The information in the SEFSA is presented in accordance with the requirements of Title 2 *US Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and the State Single Audit Implementation Act. Because the SEFSA presents only a selected portion of the operations of Duplin County, it is not intended to and does not present the financial position, changes in net position or cash flows of Duplin County.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported in the SEFSA are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Duplin County has elected not to use the 10—percent de minimus indirect cost rate as allowed under the Uniform Guidance.

NOTE 3 – PROGRAM CLUSTERS

Federal programs with different Catalog of Federal Domestic Assistance (CFDA) numbers that are closely related because they share common compliance requirements are defined as a cluster by the Uniform Guidance. The following clusters are separately identified in the SEFSA, Supplemental Nutrition Assistance Program (SNAP) Cluster, Temporary Assistance for Needy Families (TANF) Cluster, and Child Care Development Fund (CCDF) Cluster. The following are clustered by the North Carolina Department of Health and Human Services and are treated separately for state audit requirement purposes:

- Subsidized Child Care
- Foster Care and Adoption

NOTE 4 – FEDERAL PASS-THROUGH FUNDS

The County is also the sub-recipient of federal funds that have been subjected to testing and are reported as expenditures and listed as federal pass-through funds. Federal awards other than those indicated as pass-through are considered to be direct.

NOTE 5 – CONTINGENCIES

Grant monies received and disbursed by the County are for specific purposes and are subject to review by the grantor agencies. Such audits may result in requests for reimbursement due to disallowed expenditures. Based upon experience, the County does not believe that such disallowance, if any, would have a material effect on the financial position of the County.

NOTE 6 – NONCASH ASSISTANCE

The County did not receive any federal noncash assistance for the fiscal year ended June 30, 2017.

NOTE 7 – INDIRECT COSTS

The County has elected not to use the 10 percent de minimus cost rate.

NOTE 8 – LOANS AND LOAN GUARANTEES

The County did not have any loans or loan guarantee programs required to be reported on the schedule for the fiscal year ending June 30, 2017.
